January 1, 1942.

Our Customers, Inc.,
Everywhere,
U. S. A.

Greetings:

Once again it becomes our privilege to greet you all personally--to thank you for your continued patronage--and for your many wonderful letters of commendation and encouragement, one of which is reprinted elsewhere in this catalogue.

To supplant the Roses, Perennials, and Bulbs formerly supplied by various European countries, American Horticulturists have expended time, energy, and money to develop new types for your gardens. We have traveled our own land from coast to coast this past summer searching for novelties to bring you--Delphiniums and Primroses from the northwest--new Roses from the west coast as well as the eastern seaboard--Perennials from the north--Chrysanthemums from the east, mid-west, and far off Australia. All are listed in these pages and available to you.

Remember--gardening affords an excellent relaxation in these days of war and strife. It will bring you a joy which cannot be taken from you. There are no priorities on plants which glorify your garden--no taxes on the beauty their flowering brings you.

Vegetables may feed your bodily hunger, but beautiful flowers will feed your soul!

Do come and see us--a warm welcome awaits you!

TOTTY'S,

Charles H. Totty
PRESIDENT.

NOVELTY INTRODUCTIONS FOR 1942

Price: \$2.00 each, \$20.00 per dozen

May Burns

MAY BURNS

Chartreuse-yellow. Typical Japanese type with stiff narrow petals which curl beautifully at the tips. A most distinct flower, very large and full, of perfect form, and combined as it is with ideal foliage, strong stem, and good habit of growth is most suitable for any purpose. For exhibition purposes take the first crown bud after August 15th, which matures about November 1st. Height 4½ to 5 ft.

LADY KNOX

A most delicate shade of mauve-pink with extra large, long, drooping petals, and about the finest variety ever introduced in this particular color. Growth, foliage, and flower stem are perfect, and when better known will be one of our leading exhibition types. Take first crown bud after August 15th, maturing about November 1st. Height 4½ to 5 ft.

Totty's

Pockett-Totty

NOVELTY INTRODUCTIONS FOR 1942

Price: \$2.00 each, \$20.00 per dozen

Dr. T. N. Leslie

DR. T. N. LESLIE

A reflexing Japanese Chrysanthemum of dark Indian-red with rather broad petals. Quite unusual in color and distinct in growth. Dwarf in habit but its large, full flowers are ideal for exhibition purposes. Select first crown bud after August 20th. Matures about October 25th. Height 4 feet.

Page Two

TOM PURVES

An extra large reflexing Chrysanthemum of chestnut-crimson with bright gold reverse, a shade that is very much in demand for exhibitions. Large flowers of good substance and splendid growing habit. Select first crown bud after August 20th. Matures about October 25th. Height 4½ ft.

NOVELTY INTRODUCTIONS

From De Petris for 1942

Price: \$1.00 each, \$10.00 per dozen, except where noted

ADONIS

Deep Bordeaux or wine red with bronzy center. Resembling very much a Pompon Dahlia on account of its compact stiffness. Flowers well placed on graceful sprays. Maturing about November 20th.

Price: 50c each, \$5.00 per dozen, \$35.00 per 100.

ANACONDA

Large incurved exhibition Chrysanthemum of coppery red shaded bronze. The foliage and stem are perfect. This variety does best on a terminal bud and matures about November 10th to 15th. Height, 4½ to 5 ft.

ARIZONA

One of the most beautiful Pompons we have sent out in many years. Deep reddish bronze with gold shadings. Nice compact grower with flowers about two inches across individually, well placed on nice stiff stems. Flowers November 20th. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

ATHENIA

A magnificent and unusual shade of muskmelon-pink. Beautiful single of fine spray formation. Tall

Europa

Anaconda

grower flowering in mid-November. One of the Korean Hybrid type, best suited for greenhouse culture.

AUTUMN STAR

A small spray Anemone suitable for garden or greenhouse work. Clear snow white in color, and extremely free flowering. Maturing about October 10th. A dwarf growth with excellent foliage that has been the outstanding variety in our greenhouse this year, and is suitable for both cut flowers and pot plant work.

EUROPA

An outstanding new Single of rich Brazilian red with wide petals shading to a rich bronze as the flower ages. The reverse of the petals are tawny buff and occasionally where the flowers fold over at the tips this color lightens up the flower to a remarkable degree. A fine strong grower on long stiff stems, maturing about November 1st. We can recommend this to anyone looking for a true novelty in a Single type.

NOVELTY INTRODUCTIONS FROM DE PETRIS FOR 1942

Price: \$1.00 each, \$10.00 per dozen, except where noted

CASSANDRA

A true "Princeton" orange in color. A medium-sized Pompon growing on long, stiff stems and flowering about October 20th. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

COPELIA

Large button Pompon of deep chrome yellow with reddish reverse. Flowering about November 10th. A truly fine variety. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

DISCOVERY

Large flowering Pompon of pale lavender-pink, shading to blush pink on the outer edges. A very graceful variety to use in arrangements. Quite a tall grower, maturing early in November. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

MORAVIA

Soft rust Pompon with gold reverse. Fine stiff grower with large foliage, which is an attractive foil for the lovely color of this item. Flowers about November 25th. Medium height. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

NEVADA

A dazzling white Anemone with heavy petals. A striking contrast is the green cushion arranged on a high crown in the center of the flower. Medium tall grower, flowering about November 10th.

OPULENCE

Golden yellow Pompon with quite wide petals and a very attractive flower. Tall growing variety coming into flower about Thanksgiving. Nice stiff grower. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

RED PRINCETON

A true red sport of the orange "Princeton." Exactly like its parent in every other respect. A fine grower and nice heavy flowers with stiff petals on long stems. Flowering about November 20th.

RED ROBIN

Crimson is rather a scarce color in the Pompon class, but this crimson-red that we introduced for the first time this year will fill a long-felt want in this section. Beautiful long sprays with flowers well placed on the stem. Maturing early in November. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

RHAPSODY

Strawberry-red shading to apricot. A very unusual shade in Pompons. Grows in graceful sprays and matures about November 1st. Its excellent carrying color will recommend this to many gardeners. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

SONORA

Very vigorous growing Single of medium height and excellent substance. Vivid orange-scarlet in color, and retains this shade regardless of how long it remains on the plant. Matures about November 20th.

VOLGA

Clear white, very full Pompon of medium size. Growing quite tall, and maturing about October 20th. A very pleasing subject. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

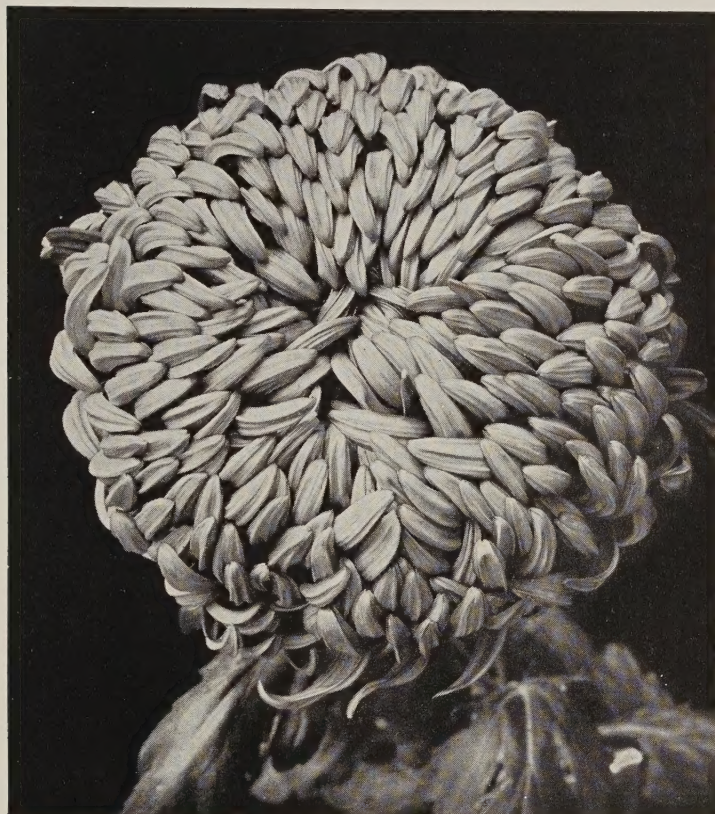

Nevada

Standard Varieties

EXHIBITION CHRYSANTHEMUMS

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

Appert

APPERT

Japanese incurved variety of great merit. True golden color. An easy grower, and will attain a height of about 5 feet if taken on the crown bud.

BARBARA PHILLIPS

The color is a fine glowing yellow and the flower as grown by us this year was simply enormous. It is a reflexing variety without any faults whatever and I predict in another year it will be a serious competitor to "Yellow Majestic" if it does not displace it entirely. Our best bud was that taken on August 15th. Height, 5 feet.

CORONATION AMARANTH

French purple with silvery mauve reverse. Broad petals, rather tall grower and for this reason should be planted later than other varieties of this type. Will eventually take its place as one of the best of the early exhibition varieties. Bud August 15th. Height, 4 to 5 feet.

DR. J. M. INGLIS

A rich wine purple Amaranth with a silver reverse. The petals are loosely incurved. November 1st.

ELIZABETH ARDEN

One of the most distinct colors in our entire collection. Fine shade of deep strawberry pink, with silvery reverse. A combination which must be seen to be thoroughly appreciated. Attains a height of 4 feet. Bud after August 25th.

EVA WOOLARD

Large Japanese Chrysanthemum of clear lemon yellow. Reflexing in type and a fine grower that can be depended on having every bud come good. Height, 5 feet.

FRIENDLY RIVAL

The finest yellow for Thanksgiving and about the brightest yellow it is possible to produce. Bud taken September 20th. Height, 4 feet. November 1st.

GRACE BURTENSHAW

Light canary yellow. A grand grower and a fine addition to the type in every way. Immense broad florets incurving at the tips. If it were a trifle deeper in color it would be one of our finest sorts. Best flowers come from buds taken August 25th. Height, 5 feet.

GRACE STURGIS

An enormous flower of rich wine red with a pinkish silver reverse. Should not be fed freely. Crown bud August 25th. October 20th.

HARVEST MOON

Bright yellow incurved Chrysanthemum. Extremely large in flower, blooming in late October. Very strong erect stem holding the flower without support. Last crown or terminal bud gives best results. One of the largest flowering varieties at this particular season. Height, 4½ to 5 feet. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

HENRY WOOLMAN

Frequently called Crimson Majestic on account of its style of growth, being reddish crimson with a gold reverse. The large flowers are of good texture, and attain a height of about 5 feet. Every plant produces wonderful flowers from either early or late buds, both of which give satisfaction. Early crown buds after August 10th, we have found best for our particular purpose.

IMPROVED THOMAS POCKETT

A true replica of Thomas Pockett but much deeper in color, being a deep wine-red with incurving tips and reverse of petals silvery pink. A second crown bud on this variety for perfect flower and finest color. Height, 6 feet. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

Standard Varieties EXHIBITION CHRYSANTHEMUMS

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

J. R. BOOTH

This is the golden yellow sport of Nagirroc which is too well known for further description. Height, 4 feet. Crown bud August 26th. Matures October 28th.

LADY FRANK CLARKE

A glorious rich yellow incurved Japanese Chrysanthemum. The color is perfection and everything desired in a good exhibition Chrysanthemum is given us in this variety. Take bud August 20th onwards. Height, 5 feet.

LOUISA POCKETT

Color purest possible white. Flower, stem and foliage are alike enormous. Plants need plenty of room to develop. Certified C. S. A. Height, 5 feet. October 28th.

MADELON

A rosy fawn with a buff reverse. Extra large blooms with broad reflexing florets, forming a most attractive flower. Splendid habit and a fine grower. Attains a height of 5 feet to 6 feet on any bud. Mid-season variety.

MAJESTIC

Clear, shiny amber bronze, a very brilliant shade of color, and a most attractive variety. November 1st.

MARIAN H. UFFINGER

Color is a dazzling bronzy crimson with a gold reverse. Bud August 20th to 25th. Height, 4 feet.

MRS. J. LESLIE DAVIS

It is absolutely identical with Turner in every respect save color, which is a clear lavender pink. Height, 5 feet.

MRS. B. D. SPILMAN

An apricot-orange. The rich color, and graceful reflexing petals impress one very much. Bud August 20th. Height, 4 to 5 feet. October 28th.

NAGIRROC

Finest exhibition bronze we have ever distributed: color, deepest glowing orange-bronze, 45 inches in circumference. Height, 5 feet. Any bud after August 15th. Matures October 28th.

PERCY LANCASTER

A large, broad petaled, incurved Chrysanthemum. Old rose with a delightful silvery reverse. A variety that will be received with open arms by the show exhibitor because good pink exhibition types have been getting scarcer these past few years. Handsome in size. Bud about August 20th on this fine mid-season variety. Will attain a height of about 5 feet.

RED MAJESTIC

The novelty bronzy-red sport of the popular "Majestic" is highly recommended. It resembles the parent plant in all respects, except color. Height, 4 to 5 feet. Take first bud after August 25th. Matures November 1st.

Madelon

THOS. W. POCKETT

This is a lovely clear pink with incurving tips, which has in its color every desirable attribute. We suggest a late bud the last days in August to give a perfect flower and color. Height, 6 feet. November 1st.

VERMONT

A most welcome addition to our exhibition list of pinks. The flowers are of enormous size. Bud August 1st to 15th. Height, 5½ to 6 feet. October 28th.

WHITE VERMONT

A blush white type of the ever popular Vermont; particularly valuable for the exhibition grower. Height, 5 feet.

WILLIAM TURNER

Makes a perfect ball of the purest possible white. November 1st.

WILLIAM WARDMAN

Large flowering light-yellow Chrysanthemum. Fine solid blooms with the petals reflexing and maturing in a very handsome variety. Crown bud August 10th onwards. Attains a height of 5 feet to 6 feet.

WILLIAM H. WAITE

Color, deep warm bronze, so brilliant as to seem almost shading to scarlet in some of the flowers. Bud around August 25th. Height, 4 to 5 feet. October 28th.

Standard Varieties

COMMERCIAL CHRYSANTHEMUMS

Price: 3 plants 50c, \$2.00 per dozen, \$15.00 per 100

Commercial Chrysanthemums are grown for the cut-flower market and Florist trade. The earliest of these, such as Early Frost, Gold Lode, Indianola, etc., will flower satisfactorily in the garden for amateur growers.

When grown outdoors we cannot guarantee them to be entirely hardy, so we would suggest that after flowering, the roots be lifted and carried over in a cold frame or root cellar until the following Spring.

Alameda

Alameda—Incurved bronzy-yellow of medium size. Maturing about October 25th. Fine strong stems. Good grower of medium height. We suggest late buds for best flowers. This particular variety is recommended for pot plant work on account of its very rigid form of growth and dwarf habit.

Autumn Gold—Rich golden yellow. Very striking color, glistening in the sunshine. Vigorous habit of growth. A beautiful subject. Matures October 15th.

Betsy Ross—Finest mid-season white. October 25th.

Bronze Lode—A light bronze sport from "Gold Lode." Medium in height and very suitable for pot plant work. Select bud August 25th for flowers October 1st. A very good variety for early work.

Chattanooga—Medium white for Thanksgiving. Select buds September 20th and plants should be at full maturity November 25th.

Col. F. M. Alger—Large incurved bloom 7 inches in diameter and over. Color Pernet yellow suffused with deep gold on heavy, rigid stem $4\frac{1}{4}$ to 5 feet long. Take bud late August to September 5th. In full flower November 5th.

Detroit News—Golden bronze. October 25th.

Early Frost—Popular early white. October 20th.

E. A. Seldewitz—One of the best late flowering pink 'Mums, introduced to date. Can be had for Christmas if necessary.

Gay Nineties—This lovely Japanese Chrysanthemum, pale rosaline purple with deeper pink reverse has proven itself very popular in our greenhouse this year.

Gladiator—Large incurved Chrysanthemum with very wide petals of yellowish-bronze with inner shadings of bronzy-red. Comes good from any bud. Medium in height and of excellent substance. Maturing November 1st.

Gladys Pierson—Apricot orange, flowering about November 25th. Take bud September 30th.

Golden Celebration—A glistening yellow Chrysanthemum, flowering about November 5th. Take bud about September 10th for best flowers.

Golden Mistletoe—Light yellow sport of Mistletoe. November 15th.

Golden Bronze—A wonderful shade of golden bronze. October 30th.

Golden Glory—Golden yellow commercial variety. One of the most popular in this color. They are rather medium in growth and if a bud is selected around August 25th it will mature around November 1st.

Gold Lode—The best early yellow. October 10th.

Harvard—Japanese reflexed, very dark crimson, November 15th.

Helen Frick—A very lovely pink variety of medium height on which, if bud is selected September 10th, it will give you flowers November 25th.

Hilda Bergen—Deep rich mahogany bronze. October 25th.

Indianola—Finest of the early bronzes. October 5th.

Lustre—Beautiful shade of lavender pink. October 15th.

Mrs. H. E. Kidder—A very popular early bright yellow; stiff, upright stem. Flowers 7 inches in diameter by October 15th from buds selected August 25th. Height, 4 feet.

Mrs. Nellie T. Ross—A light yellow, possibly a shade lighter than Major Bonnaillon. Matures end of November into December.

Oconto White—The large blooms are produced on strong stems. Requires a crown or early bud. Height, 4 feet. Select bud about August 25th. Matures October 25th.

Pandora—Grand golden-bronze of perfectly rounded form. Medium in size but of excellent substance. Strong stem and good grower, and also makes a splendid pot plant. Matures November 5th and gives best flowers from late buds.

Pink Chief—A bright rose-pink, a true commercial form, flowering October 15th. A tall grower, and we recommend taking the terminal bud for the best color on this variety.

Rose Perfection—A rose shade of pink of rather dwarf growth. If you select bud September 10th you can expect flowers November 10th.

Silver Sheen—A pure white variety, medium in height. Flowering October 20th from bud selected August 30th.

Sunglow—A bright yellow like Major Bonnaillon. October 10th.

Whittier—A very fine shade of yellow. Medium in height. Flowering November 18th from bud selected September 18th. One of the better known commercial types.

White Perfection—An ideal variety if one is looking for white flowers around November 10th. Dwarf medium grower on which bud should be selected September 10th for best results.

Yellow Early Frost—The yellow companion for Early Frost. October 25th.

Yellow Gladys Pierson—Clear yellow sport of the popular Gladys Pierson, "blooming for Thanksgiving." November 15th onward.

Standard ANEMONE CHRYSANTHEMUMS

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

BLANCHE

An improved form of Garza. A very attractive white flower of splendid habit. October 25th.

BOB WHITE

A small white Anemone which will finally take its place at the top flight as a very special variety for exhibition work. Excellent in size, magnificent in form. A very lovely grower and most attractive in every way.

CHINA ROSE

Splendid variety of the Anemone type. The color is Dragon's blood red. The growth is particularly dwarf and robust with foliage carried right up to the flower. November 1st.

CRIMSON GLOW

A true crimson red Anemone with the cushion slightly tipped gold. The flower attains a size of about 4 inches across, growing 8 to 10 blooms to a plant. November 5th.

CHROME EMERALD

A late spray Anemone of great substance and of a very brilliant golden-orange color, an exceedingly sturdy producer of medium sturdy growth possesses excellent substance, keeping for many days either on the plant or when cut, matures the end of November or early December, an exceptionally good variety for pot plants or cut-flower purposes.

DARK PINK FRIEDA

A lovely shade of spinel pink with pale yellow cushion. A delightful contrast. A duplicate of the original "Frieda" in every way except color, which is a lovely deep rich shade. Should be extremely popular. In full flower November 1st.

ELIZABETH

A splendid light pink, on the order of Tuxedo, but with higher and fuller center. The largest flower of its type.

ESTRELITA

Bronzy orange Anemone with very full cushion. In full flower about November 15th. Height 3½ feet and a very strong grower. In order to procure good size flowers this variety must be disbudded.

FRANCES SCHOEN PARK

One of the most exquisite and largest Anemones we have ever had the pleasure of distributing. A dazzling white. Very occasionally the inner cushion of creamy white will be faintly tinged blush. A fine heavy grower of perfect form, unexcelled for exhibition purposes with individual flowers 6 inches or more across. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

INNOCENCIA

Outer petals of pure white; central petals most beautifully flushed pale pink; edges of the tubular petals in center of light yellow. October 25th.

KATHLEEN

A lovely Cattleya pink Anemone with quilled center of pale pink. The tip of each individual petal is edged with gold.

LITTLE AMERICA

A gorgeous, glistening white Anemone growing in sprays; very lovely and unusual.

Bob White

MARIETTA

Beautiful soft pink Anemone with very full cushion. In full flower October 20th. There is no variety that surpasses this for floral arrangements.

MAUREEN

A brilliant scarlet, like Red Bird in type, with its small flowers but with more orange-bronze shadings than there is in Red Bird.

MRS. BENJAMIN S. MECHLING

A beautiful shade of tangerine orange and truly one of the handsomest Chrysanthemums we ever introduced both in color and type. A variety that will be popular with both professional and amateur growers for many years to come. **Price: 50c each, \$5.00 per dozen.**

MRS. JOHN SHIELDS

Beautiful sulphur yellow Anemone with a deeper lemon yellow boss in the center. This variety does not show its true character unless disbudded, but can be grown in sprays, if a person does not wish exhibition type flowers.

NORMA

A large flowering show Anemone. Color a delicate pink with bronze yellow cushion. Matures October 25th onward.

ORCHID BEAUTY

A deep Cattleya shade of pink with high cushion of pale gold, making a most pleasing contrast. Matures about November 10-20.

Standard ANEMONE CHRYSANTHEMUMS

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

PURPLE QUEEN

An Aster purple Anemone with a lighter reverse and the cushion florets tipped with gold. An exquisite variety when grown with white flowers, for which it is a most pleasing contrast. Individual flowers 3 inches in diameter with eight or nine flowers grown on each spray. Matures November 15th to 20th.

ROLINDA

A reddish bronze Anemone with very crisp formal petals reminding one very much of the decorative types of Dahlias. An outstanding variety, and one that can be successfully planted outdoors. November 1st.

ROSE MADDER

A deep rose-pink Anemone with the center cushion so prominent as to practically obliterate the outer row of petals. Splendid habit. October 25th.

SILVER STAR

A glistening snow-white Anemone, throwing small flowers in great profusion in well-formed sprays. An easy grower and its great productiveness makes it a most desirable variety. November 5th.

SURPRISE

Brilliant rose-pink; one of the largest and very finest in this section. November 1st.

SUSANNE MILLER

A golden yellow sport of "Norma," identical to its parent in every way, excepting color. November 5th.

TUXEDO

A lovely shade of Enchantress pink. This variety was grown by the originator for years, but not generally distributed. One of the daintiest shades of color it is possible to procure in Chrysanthemums. November 1st.

Mrs. Benjamin S. Mechling

THE TITAN

Tangerine bronze. A very exceptional color of indescribable brilliance. Wonderfully clean grower, with fine foliage throughout the season. October 25th.

WHITE FRIEDA

The white duplicate of the original "Frieda." Glistening white Anemone with pale yellow cushion. In full flower November 1st.

Double Pink Spoon Mum

DIERDRE (Gillies)

A very novel double Spoon Chrysanthemum with flowers two to three inches across of deep raspberry-pink tipped silver. These plants attain a height of about 18 inches and are ideal for solid bed or pot plant work. Their bright yellow center contrasts beautifully with this very unusual shade of flower. Very prolific in growth, but the full flowers are well spaced on the individual stems, making the same one of the most attractive Chrysanthemums that has been introduced for many years. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

Saratoga

A large commercial deep golden yellow in color. Of perfectly globular form. Has excellent stems and foliage. Is a very easy grower of sturdy habit and medium height. Produces a very high percentage of perfect blooms. The great substance and keeping qualities of this variety will make it most desirable for decorative purposes. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

Totty's

Standard Varieties

FEATHERY, SPIDERY, and THREADLIKE VARIETIES

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

Where one wishes late flowers and has a conservatory or greenhouse, we recommend that just a few of the following varieties be grown.

Virginia

Bess Witt—A sport of "Peggy Ann Hoover." The tubular petals of magnificent cinnamon-buff expand at tip to carnelian red.

Baroness Hilla Rebay—A bronzy salmon-buff shading to old gold as the flower ages. In other words, it deepens intensely in the bronzy shadings as the flower develops. Very fine full petalage. Nice heavy grower, fully matured November 10th.

Bunbu—Deep orchid-lavender Spidery type. A fine cut flower subject. Stem and foliage ideal. Height, 5 ft. Matures November 1st.

Dainty White—Fine tubular petals with hooked-up tips, about 12 inches in diameter. Medium height. Matures October 25th onward. **Price: 50c each, \$5.00 per dozen.**

Dalbusti—A rosy cream spidery type with a center of creamy yellow. The petals are quilled and curl at the tips in such a way as to appear to be little golden knots. A little late for the shows, being at its best November 15th.

Fugi (The Wisteria)—The largest of the entire set; pale lavender in color.

Marian Bell—A very fluffy feathery type of glistening white. Beautiful large flowers which attract immediate attention wherever shown. One of the most outstanding of this type, since its fluffy petals form perfectly rounded flowers, and when disbudded can be grown almost to the size of the exhibition type.

Mamoru—A dark orange quilled Chrysanthemum, increasing in depth of color towards the center. Fine, strong stem and abundant foliage. Of fine keeping quality. Medium height. Matures October 30th. **Price: 50 each, \$5.00 per dozen.**

Marilyn—A very dwarf old rose and lavender-pink combination. One of the spidery type and a very fine variety in every way. Makes an ideal pot plant or would be most suitable for growing in the side benches of a greenhouse, since it is a dwarf grower.

Milo Astell—In character and type it resembles "Source d'Or" with its shaggy thin petals, but the color is a magnificent Mohagan red. Dwarf and robust in growth, it is equally valuable for growing in the garden or as pot plants. Flowers in early November.

Nightingale—The green Spidery Chrysanthemum that created a sensation at the Fall Shows. Splendid keeping qualities and a decided green in color, shading to white towards the edges. About the nearest variety we have ever had to a green Chrysanthemum. Height, 4 to 4½ ft. Matures October 25th. **Price: \$1.50 each, \$15.00 per dozen.**

Rayon—Long tubular petals of nice bright, glowing pink, on stems 4 to 4½ ft. tall with excellent foliage. Flowers November 10th. **Price: \$1.00 each, \$10.00 per dozen.**

Saikiko—Rich golden bronze Feathery Chrysanthemum with a reverse of true old gold. Medium in height, maturing about November 20th.

Sandy Shaw—Deep lemon yellow in color with long, thin, graceful petals. Dwarf growth but extremely vigorous and one of the most pleasing and attractive of the Spidery type. Fully matured by November 15th.

Unique—A flower that is well named, for it is the most unique Chrysanthemum we have to present to our customers. The color is rich wine red and the thin quilled petals stand stiffly out from the center of the flower. A tall grower and should be planted late.

Virginia—Clear deep yellow with long quilled petals which open at the tips and reflect to about twice the width of the petals on the balance of the flower. Can be either disbudded to make large individual flowers, or grown in sprays. Grown either way, it is most attractive.

White Mrs. Filkins—A pure white 'Mum, producing many flowers on a plant. Nice stiff stems, excellent for cut-flower work and very novel in petalage.

Azalea Chrysanthemums

This Azalea type of Chrysanthemum has become very popular within the past few years, and we are now in a position to offer the same in the following colors:

**BRONZE RED PINK
YELLOW WHITE**

These plants begin to flower early in August and continue to do so throughout the fall months. They are low growing, and bushy in type, never attaining a height of over 15 inches but are very showy in places where color is desired in the early fall. **Price: 30c per plant, \$3.00 per dozen, \$20.00 per 100.**

HARDY GARDEN SECTION

The colored illustration will give our customers an idea of the different types of Hardy Chrysanthemums that can be successfully grown by the average amateur. You will note they vary from the small Baby Pompon types to the large Early Flowering sorts, with the Improved Pompons, and Single Chrysanthemums listed as well.

Where the selection is left to us (*and we will make as varied a selection as possible*) we will be pleased to make a special price of:

25 PLANTS—\$5.00 50 PLANTS—\$8.00 100 PLANTS—\$15.00

Where selection is made by the customer the price is: **Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted**, with three plants procurable at the dozen rate, twenty-five plants procurable at the hundred rate.

Types of Hardy Chrysanthemums

HARDY GARDEN SECTION (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

Chas. Jolly—Bright, rosy pink, splendid variety and popular with everyone. October 15th.

Cranfordia—In this variety we have an early flowering 'Mum that covers every possible point; bronzy yellow. October 20th.

Dean Kay—A double rose-pink Chrysanthemum. An entirely new type of Chrysanthemum, beginning to flower in July and continuing to do so until frost. Very compact vigorous grower with great profusion of blooms. Attaining a height of about 2½ feet.

Frances Whittlesey—Rich bronzy-garnet. A very fine addition to the Early Flowering sorts. Flowers in late September continuing on through the entire month of October.

Glory of Seven Oaks—This is a variety that is used very much to grow into specimen plants. The color is a very beautiful golden orange. Quite a dwarf grower.

Granny Scovill—Warm coral-bronze in color, dwarf and branching in growth with fine healthy foliage. Individual flowers about 4½ inches across of shaggy type. Height, about 2 feet, maturing October 10th.

James Hampson—Creamy-white shaded lemon-yellow in the center. The footstalk is particularly strong, holding the flowers most erect. Requires practically no disbudding, and it is an ideal plant to grow for the market. October 15th.

Jean Treadway—Sparkling pink with a deep rose-pink center, which develops as the flower advances to a soft lilac shade. Individual flowers about 3 inches across, maturing about September 30th.

Lavender Lady—A very handsome flowering outdoor Chrysanthemum of true lavender color. Strong, free flowering, handsome variety. Height, 2½ feet. In full flower October 8th. with a yellow variety makes a most glorious combination.

Lizzie Adcock—Deep yellow sport of Source d'Or.

Louise Schling—While this variety is not purely a Korean Hybrid, still it is extremely hardy and regular in its habit of growth, and certainly should find a place for itself in every garden. Color, deep salmon-red changing to a soft bronzy salmon as the flower matures.

Mrs. Pierre S. DuPont III—It is very difficult to describe accurately this variety. The dominant color is rosy-salmon combined with bronzy-tan and iridescent gold tints. Full double flowers four inches across are absolutely flawless since they never show an open center and are entirely frost resistant. A very vigorous grower branching 2½ feet across and carrying a dozen flowers and buds to a spray. In full flower early in October. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

Normandie—Creamy white, magnificent variety. The earliest and perhaps the best. October 15th.

Pale Moon—A delightfully fluffy sulphur-yellow, large flowering Chrysanthemum. Very free flowering and a "must have" for color blends. Flowers October 15th. **Price: 35c each, \$3.50 per dozen, \$35.00 per 100.**

Roberta Copeland—A double Korean. A very lovely shade of raspberry red when first opening shading to Rose-red. Indispensable for early flowers and beautiful grown in sprays. Height, 2 ft. Flowers September 15th.

Ruth Cummings—A very fine outdoor Chrysanthemum of rich bronzy terra-cotta in color. This is a variety that is generally liked by all visitors. October 15th.

Ruth Hatton—Very vigorous prolific Chrysanthemum with ivory-white flowers. In full bloom October 10th. A splendid variety.

R. Marion Hatton—Splendid deep yellow decorative Pom-pom that flowers very freely and is one of the earliest to come into bloom. Extremely hardy.

"Spoon" Chrysanthemums

Spoon Chrysanthemums develop into perfectly rounded bushes about 2 feet high, and 2 feet across and are in full flower in late October, with individual blooms attaining a size about 1½ inches across. They are perfectly hardy, and are grown to a great extent in rock gardens, and Perennial borders during the Fall months. Lovely for table decorations. Can also be grown as pot plants.

Price: 30c each, \$3.00 per dozen, \$20.00 per 100

Brilliance—Bright maize tubular petals opening at the tips to a gleaming grenadine-red. Fine erect flowers in a most unusual color for Chrysanthemums. Grand grower and a variety that

will be talked about for many years to come.

Dainty—A soft pleasing pink.

Elf—Scarlet with terra cotta shadings.

Grace—Soft canary yellow.

Clara Curtis

Chrysanthemum Erubescens Clara Curtis

The single salmon-pink Daisy-like flowers are about 3 inches in diameter and are their best in August and early September. They are well arranged. The plant is perfectly hardy and blooms so early that the flowers are never damaged by frost. The habit of this variety is spreading. The one-year old plants grow about 18 to 24 inches across, and when in bloom hundreds of flowers completely cover the foliage. The stems are 18 to 24 inches tall. It is perfectly hardy and is not particular as to soil or location. **Price: 30c each, \$3.00 per dozen, \$20.00 per 100.**

September FLOWERING CUSHION POMPONS

Price: 60c each, \$6.00 per dozen

A distinct type and the latest development of the famous Korean Hybrids. The introducer states that this is another valuable contribution to the autumn garden; in fact, one of the most outstanding that has been made for some little time.

Masses of sparkling, perfectly formed, crisp Pompon blossoms completely cover these dense, shapely, Azalea-like plants from mid-September right up until killing frost. Will come through the winter in any section of the country very satisfactorily if slightly protected, and in a section where early frosts destroy late flowering Chrysanthemums this type will permit the gardeners to have a variety of Chrysanthemums in their garden before the heavy frost.

September Gold

SEPTEMBER CLOUD

Like "September Gold" in habit, the ball-like blossoms a trifle larger. Purest ivory-white with soft Primrose shading in center, and wonderfully fine dark green contrasting foliage. Breathing in its gleaming perfection. A very fine white Pompon.

SEPTEMBER GOLD

Brilliant golden-yellow blossoms, trim and neat, twenty-five or more to a spray completely cover the shapely, well-rounded plants by mid-September and go on and on until the season's end. Colorful mounds, eighteen inches in height, much wider, the first season. Immensely prolific and somewhat earlier in succeeding years. A real advance.

SEPTEMBER BRONZE

The warm bronze and golden-bronze tints of Autumn are beautifully reflected in about the shapeliest little Pompon blossoms one can picture produced in great quantities. It is a remarkably robust plant, too. Most colorful early variety to date.

Silver Moon

This gleaming white Chrysanthemum has a degree of warmth and intensity that is entirely new, and for which there is a real need. No other kind like it! No other kind attains such early perfection. The double rays of milky white petals combine with a pale yellow central halo to suggest the play of soft moonbeams. A showier Shasta Daisy. Mild, sweet fragrance, remarkably rich contrasting dark foliage, a fine lusty 2-2½ ft. plant with September flowers equal to the finest greenhouse product are the outstanding qualities of "Silver Moon."

Price: 60c each, \$6.00 per dozen

JUST A SUGGESTION!

We were successful in locating the old Springfield Formula for Rose plants that was so successful many years ago. This item is being sent out now under the name of "D & P" Rose Food, and contains every element for producing fine healthy plants. We strongly recommend this Rose food to all of our customers.

5 lbs.....\$1.00 25 lbs.....\$3.00 50 lbs.....\$5.00 100 lbs.....\$8.00

Single CHRYSANTHEMUMS STANDARD VARIETIES

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

California Yellow—A very lovely single variety of brilliant bright yellow. An extremely vigorous grower coming into flower October 12th. **Price: 45c each, \$4.50 per dozen.**

Carnelia—A very late Single red of robust growth and excellent substance. It requires no disbudding and matures the first of December, or a week or ten days later than Valencia.

Caroline Robbins—When first opening the flowers are deep mallow-pink and gradually develop into lilac-rose. The very broad petals of this flower much resemble a double Cosmos.

Crimson Splendor—Rich crimson-maroon intensified with deep garnet tones contrasting with its golden yellow center. Flowering in late September.

Donald Geddis—An apricot-orange shading to a golden pink. A stunning beautiful Single that is impossible to improve upon.

Esther Longyear Murphy—Another spray Single which can also be disbudded if so desired, producing large flowers of a beautiful burnt orange color, a seedling from Tagoya and Valencia; matures in early November.

Golden Mensa—Identical with Mensa in every way except color, which is a bright bright golden yellow.

G. Herman Kinnicutt—When we say that this variety is an improvement on "Cleopatra" in form, color, and constitution, it is a tall statement, but actually true. At the New York Show it won the highest award in the pot plant section. This is a very beautiful shade of bronzy amber-yellow of the highest possible order of merit.

H. Marie Totty—A brilliant crimson, with scarlet shadings. November 1st.

Improved Grenadier—Most easily described as a greatly improved Red Rover. A striking brilliant red with clear gold reverse, and every petal reflexing to show the color to the best advantage. One of the finest Singles of the entire collection.

Invincible—An exceptionally large deep crimson with bright yellow zone around the center disk. The tips of the petals curl back, making a very refined flower.

Jane Harte—One of the daintiest Single Chrysanthemums ever distributed. The color is a beautiful deep yellow. October 30th.

Jennifer—Beautiful large yellow Single with dustings of rich carmine-red. Very heavy flowered type. Quite a tall grower and does best when disbudded. Matures November 15th.

Last Call—A very heavy orange-yellow Single with cupped formation of petals and warm bronze shadings.

Mabel Seymour—The outstanding white Single. The flower is very large and the plant vigorous and unexcelled for making a pot or exhibition plant, on account of its fine growing and blooming qualities.

Margaret W. Wanner—Cadmium orange, suffused deep amber bronze. October 25th.

Melba—A brilliant bronzy red of exceptional merit. November 1st.

Mensa—Purest white. This is a splendid variety. November 5th.

Mrs. James S. Kelly

Absolute—Is absolutely the finest intense scarlet bronze. Single with a clear yellow center. Stems and foliage are ideal, and it does not seem as though we will ever be able to propagate enough of this variety to supply the demand.

Acacia—Fragrant Acacia-colored flowers. A small Single produced on long graceful dense sprays and flowering September 20th. Height, 2 ft. **Price: 35c each, \$3.50 per dozen, \$35.00 per 100.**

Anne Vaillant Dort—A gorgeous salmon-bronze Single. This variety is the last of the seedlings originated by the late Mr. Francis H. Bergen of Summit, N. J.

Athalie—One of the earliest of the Single Chrysanthemums to come into flower. Was in bloom with us this season weeks ahead of any other variety. Very lovely warm shade of bronzy yellow with about 2 to 3 rows of petals.

Audax—Deep rose pink with carmine red dustings over its broad stiff petals. Habit of growth heavy and dwarf.

Bronze Buckingham—Bronze sport of "Mrs. Buckingham." October 25th.

Single CHRYSANTHEMUMS STANDARD VARIETIES

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

Miss Isabelle—Bronze with a silvery reverse to the petals. November 5th.

Miss A. Wisby—A beautiful orange-amber, shading lighter towards the center. A particularly vigorous grower and should not be disbudded too closely.

Morinal—A lovely soft pink with a gold center. A Hybrid between Chrysanthemum Articum and Chrysanthemum Morifolium, and it is needless to say that it is one of our finest garden varieties, but it does not flower until about the end of October. However, the habit of the plant is very productive and the beautiful Daisy-like flowers on long stems possess unusual substance.

Mrs. David L. George—A yellow suffused pink, making a very handsome combination. Dwarf, stocky, robust in habit, and a very fine healthy doer. November 1st.

Mrs. E. D. Godfrey—Light pink, very finest variety for Thanksgiving market. November 15th.

Mrs. James S. Kelly—Blush white with pink lilac shadings. Handsome grower and one that should be well received. This lovely soft color will be an asset to any collection.

Olivia Post—A very fine early Single bronze in full flower with us August 20th and a solid mass of flowers for nine weeks thereafter.

Patsy—Exhibition Single. Clear yellow with bronzy shadings towards the edges. A great favorite with exhibitors who admired its stiff stem and perfect habit of growth very much this season.

Peach Glow—Beautiful large Single of magnificent rich chamois pink. Quite a popular variety with our visitors here this Fall. Tall grower on fine stiff stems. Maturing November 5th to 10th.

Prince Charming—Exhibition Single of soft yellow with gold shadings. When disbudded will produce flowers at least 6 inches across.

Red Rover—This variety is a marvelous crimson with gold reverse on the petals, and a deep gold center. The individual flowers are six inches across and the most glowing shade of rich crimson-orange in color. October 30th.

Rita Clifton—A lovely rose pink Single of very interesting form. The lower row of petals is a deep lavender in shade with several rows of shorter petals of deep rose pink, surrounding the center of the flower.

Rose Glow—Beautiful old rose pink flowers produced in great profusion around October 5th. Height, 1½ to 2 feet.

Rosemary—A rich purple duplex single Chrysanthemum that produces quantities of medium flowers suitable for either spray or disbudding purposes. Matures in late November and extremely long-lasting as a cut flower.

Ruth H. Pawlik—A beautiful pomegranate bronze Single, with large heavy flowers growing on long sprays. An extremely handsome variety in every way.

Sonia—Exhibition pink, blooming quite a little ahead of Valencia, but slightly deeper in color than this variety, and its broad petals and rigid habit of growth make it an ideal pot plant.

Stewart Smith—This is the white Single that made such a wonderful record for itself in the exhibitions of the East. Good white Singles are scarce, so this will be a welcome addition to the very small list now existing.

Sunburst—The color is an intense burnt orange, each petal carrying a lavender sheen, it matures November 15th to the 30th.

Sunny Boy—A Single very similar to Valencia, except that it is a bright golden yellow color. The individual blooms are much smaller and more fragile. Matures November 25th.

Sunflower—Bright Sunflower yellow in color, but recommended to be grown entirely in sprays, because when it is disbudded it has almost too many petals to be classed as a true Single.

Valencia—A beautiful shade of Valencia pink without a single trace of magenta, one of the loveliest Singles ever introduced. Flowers measuring over 4 inches across.

White Godfrey—Pure white Single. The white form of the original "Mrs. E. D. Godfrey." Excellent for late November cutting.

Yellow Godfrey—Pure yellow form of the original "Mrs. E. D. Godfrey." Lovely clear yellow with a bright gold center and an excellent variety for Thanksgiving work.

Novelty NORTHLAND DAISIES

The following are the newer varieties of Northland Daisies that we offer for the first time this year.

Price: 45c each, \$4.50 per dozen

Cydonia—A very bright reddish-bronze Northland Daisy that created quite considerable comment this year from visitors. In flower October 10th, and for this reason most popular.

Eric the Red—As its name implies, a very fine red Northland Daisy with no other shading whatever, except the contrasting greenish yellow center. This variety grows to about a height of about 20 to 24 inches, and is a very handsome cut flower subject.

Loki—A very intense deep Rose-pink. Quite a dense grower of medium height, flowering October 18th. About as near to a purple Chrysanthemum as we have ever seen. A great improvement on "Kristina" introduced for the first time last year.

Norseman—Henna-orange of very fine substance. A very dense grower, quite dwarf in growth. Flowering about October 25th.

North Pole—Coppery red. A very fine cut flower variety, flowering October 15th.

South Pole—Golden yellow double Pompon. Quite a tall grower, but coming into flower, as it does, October 15th, will be quite popular for this reason.

Valhalla—A velvety deep garnet Northland Daisy with open center, as is descriptive of the type. Makes a large plant and has very fine foliage. We recommend pinching this variety for best results. Matures October 15th.

Standard NORTHLAND DAISIES

Price: 35c each, \$3.50 per dozen, except where noted

This type of Chrysanthemum, sent out for the first time last season, proved an instant success. Everyone who grew them is increasing their list this season to include the newer varieties. Many years of cross-breeding on the tough little Arctic Daisies from northern Europe produced these absolutely winter-proof Chrysanthemums, with their handsome leathery leaves of dark green. Beautiful symmetrical plants that are a pleasure to behold even when not in flower. As they flower very early in the season, they are rapidly surpassing other early flowering types.

Astrid—Color, soft pink shaded apricot with yellow centers. Flowering October 1st.

Beowulf—Lovely shade of dark bronze. In full flower October 10th.

Brunnhilde—A salmon-bronze Single Daisy with a nice bright yellow center. A grand grower and a variety that will be in full flower October 5th.

Igloo—A perfect globe of pure white Daisy-like flowers in your garden. Flowering October 5th. Unsurpassed for lasting effect.

Kristina—"Extremely deep Rose-pink" is what the introducer

calls this color. We would call it almost a true purple and a most unusual shade in the Fall garden. In full flower October 10th.

Nibelung—Coral red flowers about the size of a fifty-cent piece, with large yellow center. Very striking. Flowers October 15th.

Sieglinde—A true mallow-pink Single Daisy, flowering October 5th. A very handsome sort.

Siegfried—Large sulphur-yellow. In full flower October 12th.

Viking—Lovely shade of orange-red. Fine symmetrical grower, flowering October 10th.

Novelty DWARF NORTHLAND DAISIES

Price: 50c each, \$5.00 per dozen, \$35.00 per 100

This is a collection of four Novelties of this type that do not attain a height of over 18 inches, and are just covered with flowers. They would be ideal for solid beds or borders on account of their prolific flowering and low habit of growth.

Since all of these varieties attain the same height, they can be grown close to each other and are a perfect mat of flowers. They attract attention a great distance away, and are most striking regardless of where they are planted, and we thoroughly recommend the entire list where variety is sought.

Greenland—An Indian-yellow, semi-double dwarf variety attaining a height of 18 inches. Very fine grower, and extremely showy. Flowers October 15th.

Iceland—Creamy-white semi-double dwarf Northland Daisy. Should be in great demand for fall gardens. Height, 18 inches. Flowers October 15th.

Labrador—A very beautiful shade of Rose-pink with lighter shadings on the edges of the petals. A dwarf variety not attaining a height of over 18 inches. A very showy garden subject. Flowers October 15th.

Yukon—Brilliant bronze semi-double dwarf variety. Height, 18 inches. Flowers October 15th. A fitting companion to the other three varieties.

Pompon CHRYSANTHEMUMS

Frequently Known as the Button Type . . .

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

These are the old-fashioned form of Chrysanthemum blooming later in the season than any of the other types. For cut-flower work they are unexcelled since they produce long sprays with the blooms gracefully arranged on the stem.

Adelaide—A splendid, deep, rich mahogany; one of the earliest to develop, being ready to cut by October 10th. Strong, healthy grower and a desirable variety in every way. About 4 feet high when well grown. October 25th.

Albert Muller—Color, apricot, suffused soft pink. The blooms measure 2 to 2½ inches in diameter, grown on strong erect sprays of medium height.

Anna L. Moran—The color is splendid—a brilliant, flame-scarlet, so vivid as to be easily the most striking flower in the entire collection. The individual flowers on this Pompon are large, on the order of the Doty type.

Argo—Button Pompon in type, and a luminous soft pink color. Perfect form and excellent substance. A beautiful placement on the stems and a most productive variety. Matures early in November.

Ball of Gold—Pure yellow Pompon about 2½ to 3 feet high. One of the improved types, flowering about November 20th.

Beatrice—A very lovely clear, canary yellow. A ball shaped Pompon with quilled petals serrated at the edges. A very compact flower, very handsome in every way.

Bright Eyes—Blush pink with bright carmine eye. October 30th.

Burma—Clear golden bronze, large flowering Pompon. Crisp petals and a very fine grower although not exceptionally tall. Matures in early November.

Bronze Doty—Deep terra-cotta bronze. October 25th.

Cavalcade—A mandarin red with gold-bronze reverse Improved Pompon. Medium height. Maturing about December 10th. Has proven very popular where one is looking for late flowers.

Claret—Deep claret wine color. Flower about two inches in diameter. October 30th.

Christmas Gold—This variety is a small golden yellow and does not flower until December, making a very valuable late flowering sort.

December Gold—Coloring an intense rich clear gold. Improved Pompon of excellent habit and very free flowering. Matures in early December.

Drops of Gold—An exquisite little gem of pure gold with a bronzy red center. It is a replica of Bright Eyes only golden yellow in color.

Dorothy Turner—Rich old gold, deepening to chestnut bronze. November 15th.

Early Bird—Pink hardy garden Pompon of perfect spray formation and medium dwarf habit. Maturing October 1st.

Earliest of All—Clear salmon-pink, the first Pompon to flower. October 15th.

Edith Newberry—Improved Pompon in a beautiful shade of burnt orange, maturing November 10th to 15th.

Eileen—A very lovely cherry red Pompon; splendid in every way and a little different in color.

Featherbrook—A glowing golden bronze Pompon. If larger flowers are desired it may be disbudded, but without disbudding it is a charming subject.

Firebird—A reddish-bronze Improved Pompon of medium height, maturing around October 25th. "Firebird" has been found one of the good varieties for shading purposes to grow under cloth.

Golden Climax—Orange-yellow Pompon that has been a standard variety for many years on account of its almost perfect flower and clear yellow color.

Burma

Gold Drop—A true old gold Pompon of medium height, flowering November 1st.

Golden Frill—Deep golden yellow Pompon. Very unusual in the way it is composed of disk petals. Flowers freely produced on fine strong stems, and maturing about November 1st.

Goblin—A beautiful golden-bronze Korean Pompon, opening October 10th. Ideal for Hallowe'en decoration. Very strong, neat growing plant. Height, 2 ft. Very hardy. **Price: 35c each, \$3.50 per dozen, \$35.00 per 100.**

Irmalinda—Color, old rose with silvery sheen. Flowers about 1¾ inches in diameter. It comes into flower around October 25th.

Irene—A pure white early Pompon flowering about October 18th. A very fine upright grower.

Ivory—Ivory white Pompon of medium size, and splendid growing habits. Matures about November 1st.

Legal Tender—Vivid red and gold. A very fine late variety. November 15th.

Lillian Doty—It is much the finest pink in the entire Pompon family. October 25th.

Loris—A very fine large late bronze Pompon, flowering for Christmas, and one of the best in its type. Very much like Legal Tender in color, but of course flowers very much later.

Lugano—A brilliant lemon yellow, shading to golden yellow. October 30th.

Mary Pickford—One of perfect form, petals reflex at maturity nearly to stem, forming a ball of pure white.

Monterey—Clear rust maroon almost identical with "Woburn" in color. A beautiful Pompon possessing size, perfect fullness, and spray formation. Medium dwarf in habit with rigid stems, making an ideal pot plant variety. Matures November 20th.

Pompon CHRYSANTHEMUMS (Continued)

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

Mrs. Francis H. Bergen—Creamy white, with center of rosy pink. October 30th.

Mrs. H. Harrison—Blush pink, flowering October 1st. October 15th.

Mrs. Henry F. Vincent—An exquisite shade of fawn and bronze with salmon-pink shadings. This variety also is very strong in growth and the foliage is perfect in every way.

Mrs. G. W. Wickersham—Large, snow white flowers on long stems that are splendid for cut-flower work. October 25th.

New York—Bronze seedling from Hilda Canning. Flowers November 1st.

November Glow—Color, warm orange bronze. Medium size Pompon with perfect spray placement and fullness. Maturing November 10th.

Penelope—A small flowering brilliant yellow Pompon. The individual flowers are over half an inch in size, and very brilliant in color.

Penguin—A pure white button Pompon of vigorous growth and very prolific, maturing November 10th onwards.

Persian Pink—A magnificent rose-purple Pompon. Very strong grower with the individual flowers beautifully spaced on the stem.

Persian Rose—A very gorgeous wine-colored Pompon. An exquisite combination when used or grown with white Chrysanthemums.

Pigmy Gold—Known as dwarf Korean-Pompon. This lovely subject produces quantities of small golden-yellow blossoms in early September. Invaluable for planting in front of other varieties, because it does not attain a height of over 15 to 18 inches at best.

Pippin—Large improved Pompon of clear lemon yellow. Grows beautifully in spray form or disbudded if the grower so desires.

Pomponette—A new and distinct type of Pompon particularly suited to pot culture. Its habit is dwarf, compact and branching, forming a finished plant about 12-15 inches in height. Grown in cold frames without protection it will flower naturally about September 20th—under glass in early October, so that its season can be timed readily. It requires little or no pinching. Blossoms are comparatively large, 2½ inches across and very double. Color is warm bronze in the bud or partially opened flower finishing a clear primrose yellow. It should prove an ideal subject for pot culture.

Pot of Gold—Large double yellow Pompon. Very tall grower. Does best when disbudded and matures about October 15th.

Red Doty—Wine red, with a silvery reverse on underside of petals and showing up distinctly in the short, crisp, center petals.

Princeton—It is extremely brilliant and resembles the Orange Calendula flower to quite an extent. November 20th.

Rodell—A fine clear yellow. October 15th.

Rosita—An unusual shade of rust-bronze suffused strawberry pink. A fine vigorous growing Pompon producing quantities of perfect blooms. Maturing with us October 25th.

Spanish Gold—A lovely even shade of tawny yellow with a bronzy sheen, maturing about November 10th-15th.

Sulfur—Medium size Pompon producing quantities of flowers. Very tall grower and in its color, which is clear sulphur yellow, will be extremely popular.

Tonquin—Large rose color Pompon of medium height. Maturing December 10th. One of the good late varieties.

Vera Victoria—A splendid Pompon of the very largest size. Color brilliant glowing bronzy yellow. October 25th.

Wee Dot—One of the Baby Pompons. Very minute flowers of bright bronze with a bright carmine-red eye, maturing October 25th. Individual flowers about a half-inch across. Very dwarf grower and quite popular where one is looking for an extremely small flowering variety.

White Doty—A sport of the popular variety, Lillian Doty. October 25th.

Wildfire—A full double Pompon 2½ inches in diameter. The reflexed blooms are a beautiful rust orange in color and carried on strong well formed sprays. A sturdy and very healthy grower with good production. Very desirable variety for Thanksgiving and outstanding in both color and growing habit.

Zenobia—Pure yellow. Comes into flower first of all and popular on this account. October 20th.

10 plants of the above varieties
OUR SELECTION....\$2.00

November Glow

Types of Korean 'Mums

Korean CHRYSANTHEMUMS

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

Aphrodite—Very delicate pink tinted with ivory, which changes to blush white as the flowers develop. Flowers 3 to 3½ inches across.

Apollo—Dazzling orange.

Autumn Lights—Beautiful coppery bronze, semi-double blossoms overcast gleaming orange. A most compact branchy grower. Unusually hardy. Flowers in late September. Height, 1½ feet.

Burgundy—An improvement on "The Moor" with its gloriously rich red color, but quite a little brighter than that variety. Beautiful form. Very strong grower and freely produces very fragrant blossoms which are equally striking in the garden or when used as a cut flower. Height, 2½ feet. Flowers October 5th. **Price: 35c each, \$3.50 per dozen, \$25.00 per 100.**

Carmen—Korean Hybrid of brilliant reddish-bronze in color. A decided improvement on the variety Mercury. Matures October 10th.

Clio—Dwarf compact plant of pleasing habit of producing masses of deep carmine rose duplex flowers.

Diana—Delicate rose-pink.

Dido—A very unusual color in crushed strawberry pink. Another of the very fine Arctic seedlings, maturing with us about November 5th.

El Dorado—Bronzy yellow Korean Hybrid. Maturing about the middle of October. A decided improvement on the ever popular Ruth Adams.

Ember—One of the new double Korean Hybrid introductions of 1937. Large double flowers of a true bronze with double flowers 2½ inches in diameter, flowering the middle of October.

Gleam of Gold—Beautiful Primrose-yellow that fairly gleams in the October sunshine. In full flower October 1st. Height, 2 feet.

Indian Summer—Vivid glowing orange in color with shaggy flowers 3 inches across and begins to bloom October 15th. Height, 2 to 2½ feet.

Mercury—Tawny scarlet.

Nartica—A Korean cross between Normandie and Chrysanthemum Arcticum of soft pink color. Maturing in early October. Extremely hardy.

Niobe—A vigorous healthy plant of dwarf compact habit. Flowers over 2½ inches in diameter, of a clear, glistening white with yellow disc are freely produced fully covering the plant.

Saladin—A Single Hybrid of oriental-red shaded coral-bronze. Height, 2½ to 3 feet. Flowering October 10th.

Saturn—A very vivid orange bronze single Chrysanthemum with a soft orange halo surrounding the golden yellow center. A true autumn color-effect. Flowers of excellent texture, about 3 inches across, produced in large, graceful sprays.

The Moor—A very brilliant colored Chrysanthemum of port-wine-red. Flowers fully double, practically 3 inches in diameter and of excellent keeping quality when cut. One of the double Korean types, flowering late in September and very hardy, attaining a height about 2 feet in the garden.

Thalia—A compact bushy plant growing 18 to 24 inches in height. The duplex flowers are of a lively orange shade and excellent form.

Venus—Color lilac-pink with rose-lavender shading. Flowers single, 2½ inches across, with three or four rows of petals. Remarkably free flowering, maturing in late September. Will appeal to those who like lavender and lilac tones in the garden. Delightfully fragrant. Height, 2½ feet. October 1st.

Vesta—A plant of medium height and great vigor literally covered with flowers over 2½ inches in diameter of a deep golden orange shade, almost a duplex.

Recently Introduced

VARIETIES IN CARNATIONS

Allwood's Crimson—A deep crimson variety of considerable merit. The flowers are very large and are carried on tall, stately stems. Perfect habit of growth and most easy to cultivate. Will be a consistent winner in the Crimson classes at all the shows. **Price: \$1.00 per plant.**

Doris Allwood—A soft salmon Rose heavily shaded with French gray and barred Heliotrope. An immense flower measuring 4 inches and over, with beautiful symmetrically built guard petals and a high, full center of good lasting qualities. It has the sweetest of perfumes, a wonderful calyx and long erect stems. **Price: \$1.00 per plant.**

Jersey Beauty (Beuerlein)—The identical color of the "Jersey Beauty" Dahlia! hence its name. Large, luminous bright pink. A marvelous grower and most prolific producer. **Price: \$3.00 per plant.**

Olivette—medium sized, very fragrant flowers of clear white, perfectly formed, and very full on medium length strong stems. A most productive variety. **Price: \$5.00 per dozen, \$35.00 per 100.**

Pharoah—Deep orange petals with a red edge. Flowers about four inches across. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

Picottee—Background of pure white with each individual petal edged with crimson. The combination of white background and crimson edging makes it most successful. **Price: \$3.00 per plant.**

Rosary—An immense Dark Pink, measuring 4 inches and over, with beautiful symmetrically built guard petals and of a high, full centered flower of good lasting qualities. Like its parent, Doris Allwood, it has the sweetest of perfumes, a wonderful calyx and long, erect stems. **Price: \$1.00 per plant.**

Seminole Chief—A beautiful orange-yellow Carnation with orange-red streaking at the edge of each petal. Very handsome variety. **Price: \$3.00 per plant.**

Sunkist (Beuerlein)—Orange tan color. Rather unusual as colorings in Carnations go. Medium size flower, but a most prolific grower. **Price: \$3.00 per plant.**

Topaz (Beuerlein)—White with crimson stripes. Similar to Dimity, which has claret stripes, but very much richer and outstanding in color. **Price: \$3.00 per plant.**

White Dairymaid—A sport of Dairymaid, like its recent parent in every respect except color. The flowers are large, pure white at all seasons of the year. We believe this variety will become one of the best commercial white Carnations grown. Very free flowering. Strong calyx. **Price: \$2.00 per plant.**

Standard VARIETIES CARNATIONS

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

Blaze—A most unusual shade of Chinese red. Flowers 3½ inches across. Rust proof and free flowering. Beautiful well formed blooms with non-splitting calyx and excellent keeping qualities. Fine stiff habit of growth.

Burgundy—Cross between Topsy and Spectrum. Supreme. Most marvelous pomegranate purple shade of color. Flowers about 3 inches across. Not susceptible to rust. Very prolific, with non-splitting calyx. Long straight stiff stems.

Charm (Patented)—A glorious salmon-pink variety. A "Laddie" seedling, identically the same color as "Laddie" but producing 50% more flowers than the parent. **Price: 50c each, \$5.00 per doz., \$35.00 per 100.**

C. B. Johnson—A lovely shade of soft pink. Fine full flowers of perfect form and very free flowering habit.

Chief Kokomo (Patented)—Pink variegation on yellow ground, in great demand where makeups for the unusual are in vogue.

Coral Glow—In color, a marvelous combination of terra-cotta flushed bronze, producing a decidedly Oriental effect under artificial light. "Coral Glow" is a flower for the connoisseur, on account of its distinctiveness and unusual coloring.

Dairymaid—White ground, heavily striped pink towards the edge of the petals. Flowers large and richly perfumed. Fine robust, healthy grower, and very free flowering. Splendid keeper. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

Gardenia—The very hadsomest white Carnation that has ever been introduced to the American trade. Beautiful clear dazzling white, with slightly serrated edges. Magnificent in size, and extremely fragrant. A few flowers of this variety will permeate a room with its rich, spicy fragrance.

Giant Laddie—The improved Laddie. A little deeper salmon pink in color than the original variety, with flowers 4 to 5 inches in diameter.

Ivanhoe—White ground, very heavily veined and striped crimson. Ivanhoe reminds everyone who sees it of the famous old border Carnation.

Pink Treasure

Standard VARIETIES CARNATIONS

Price: 3 plants 75c, \$3.00 per dozen, \$20.00 per 100, except where noted

Carnation Pelargonium

Joan Marie—This is a pure white, never showing any pink stripes, nor does it ever go off color. The flowers are borne on strong, sturdy stems and the leaves are much broader than any Carnation to date. It is practically disease proof and not subject to any blight whatever.

King Cardinal—Brilliant deep red in color, with large flowers measuring up to 4 inches across and fine strong stems, which carry the flowers erect; blooms early and is free and continuous with never a split calyx. A splendid grower.

Laddie—The color is a warm rose-salmon pink; the flowers average $3\frac{1}{2}$ inches in diameter, when it is at the proper stage for cutting, and develops to $4\frac{1}{2}$ inches in Winter.

Lady Hindlip—A lovely flower of blush white ground penciled carmine red. The flower is an aristocrat with its clear cut smooth edged petals, and high full centers, giving a most beautiful appearance.

Maine Sunshine—The very finest yellow Carnation that has ever been introduced in this country; a brilliant, clear yellow in color.

Marchioness of Headfort—Cream white melting into a ground color of rich red, of great substance. A most beautiful and impressive flower of the "Pelargonium" type, with a pleasing perfume. The growth is constitutionally perfect, absolutely reliable, with a substantial stem and vigorous growth.

Matchless—Well named the Matchless White. Blooms early and continuously, easy to handle, and very free. Flowers extra large and wonderfully fragrant.

Moonbeam—Color a very lovely shade of light yellow, with flowers $3\frac{1}{2}$ inches across, of beautiful form and very full, with excellent keeping qualities. Very clean healthy grower, and entirely rust resistant. Long straight stems with non-splitting calyx.

New Deal Ward—Very gay shade of bright pink, with slightly serrated edges. Free flowering, and productive.

Patrician—A white Carnation of outstanding merit. Its extra large size and vigorous growth will at once place it at the head of the list of white Carnations.

Pelargonium—The first of a new type of greenhouse Carnations. White ground, blocked or overlaid on each petal, crimson maroon. A perfect replica of the old Pelargonium. Habit, growth, stem and calyx good, with silvery foliage and a wonderful constitution.

Pink Treasure (Baur-Steinkamp & Co.)—Since Patrician was introduced, there has developed a demand for a pink variety comparable to it in size and general excellence. Pink Treasure resembles that variety in general makeup, but grows taller. Color a fine shade of medium pink.

Princess Dagmar—Largest and finest Carnation ever produced in crimson, a wonderful keeper and one that we can recommend with confidence. Stock limited.

Robert Allwood—Vivid scarlet during the four seasons of the year. Immense 4-inch flowers with high, full centers. A very strong and quick habit of growth, with erect stems and calyx that never bursts.

Royal Purple (Patented)—The maroons have come into their own as a boutonniere flower for evening dress. There is a very definite place for these purple maroons. Royal Purple has all the requisites of the modern Carnation, good size, good form, a perfect calyx, good stem and a pleasing purple maroon color that holds its velvety lustre. Blooms early and freely.
Price: 50c each, \$5.00 per doz., \$35.00 per 100.

Sir Philip Sassoon—A lovely shade of rich dark red, although not quite as dark as "Princess Dagmar," but very much on the same order of growth. A splendid grower. Deeply serrated petals add very much to the charm of this particular variety. **Price: 50c each, \$5.00 per doz., \$35.00 per 100.**

Virginia—A flesh pink variety producing quantities of flowers, besides being a splendid keeper and good shipper.

Virginia Rose—A very large rich pink Carnation. A magnificent grower and extremely fragrant. A handsome variety.

Wealth—Glistening white Carnation with flowers three or four inches across of very easy culture. Free from rust and free flowering. Beautifully formed flowers, with good keeping qualities. Long straight strong stems with non-splitting calyx.

Woburn—Referred to frequently as "The Standard Crimson." Very fine shade of color, and an unusually good grower.

Totty's

Novelty GREENHOUSE ROSES FOR 1942

**Price: 2½" Stock—\$50.00 per 100; 3" Stock—\$60.00 per 100
4" Stock—\$70.00 per 100**

CAVALIER (Patented-Santmann)

A very free flowering, beautiful shade of burnt-orange Rose that created quite a sensation at the Philadelphia Show last spring. Very much on the order of "Mrs. Roosevelt" in growth. Extremely free flowering and a nice grower. The flowers on this variety open slowly and evenly, which adds to the lasting quality of the same.

PINOCCHIO (Patent No. 81 J&P)

Bright salmon-pink in color, creating a sensation wherever

shown. Exquisite in form and size. Slightly larger than "Mrs. Finch" but an attractive deeper pink, flushed salmon. Excellent variety where a miniature is desired.

STARLITE (Patent No. 414 J&P)

An origination of the late Dr. J. H. Nicolas. Large, full flowers of pure white. Long pointed buds on long, strong stems. Heavy dark green foliage, well spaced on the stem. A vigorous growing Rose of heavy branching habit. The introducer states that this Rose has a production nearly equal to "Talisman."

BUDED STOCK ONLY... 3½" POTS

Price: \$70.00 per 100

LUCILE SUPREME

(Patent No. 485—Jos. H. Hill Co.)

A decided improvement on "Lucile Hill" introduced in 1939. "Lucile Supreme," however, is slightly darker than the original "Lucile Hill." The individual flowers are about twice the size. A grand grower and most prolific. The long pointed buds have a delightful fragrance and the foliage is just about perfect.

SNOW WHITE (Patented—Jos. H. Hill Co.)

It is many years since we have had a new white Rose to introduce to the general public, and this year two make their appearance. "Snow White" is the origination of the Joseph H. Hill Company, who has given us many of our finest Roses in the past. As its name implies, it is absolutely "Snow White" in color with very fine form and foliage. Of good substance in the petals, long pointed bud, and extremely fragrant. A wonderful grower and, where one is looking for a new white Rose, we strongly recommend this variety.

**Snow
White**

GREENHOUSE ROSES STANDARD VARIETIES

2½-inch, \$40.00 per 100;

3-inch, \$50.00 per 100;

4-inch, \$60.00 per 100

Autumn—In color, a gorgeous combination of cerise, scarlet and yellow. The firm compact bud of medium size is bright golden yellow, stained crimson without and deepening to scarlet-orange in the center. They open to semi-double splendidly shaped flowers of glorious crimson and gold with stiff petals.

Better Times (Patented) — The outstanding Rose of the decade. Its color is a brilliant cerise pink with a silvery sheen, as the flower develops. Very firm texture with beautiful clean heavy foliage.

Briarcliff—Color more brilliant than Columbia, being a true rose pink without any shadings whatever. Long pointed bud and very fragrant. Every bud of this variety is 100 per cent perfect. Abundant dark green foliage and habit of plant very vigorous.

Cecile Brunner—Known under various names, such as Sweetheart, Mignon, etc. It is a dainty, miniature Rose. Light pink in color, and every greenhouse should have a few plants of this beautiful little Rose.

Golden Rapture—Here we have a beautiful yellow Rose that is the same color as Claudia Pernet and is a quick growing, easily handled variety. This yellow is rapidly displacing every other yellow at the present time. Foliage, stem, habit, and freedom of growth are perfection. We recommend this Rose to any grower looking for a perfect yellow Rose.

Happy Days (Patented)—The color is a bright clear pink, much brighter than that of the original parent, but the growth, stems, and foliage, the exact duplicate of Briarcliff. Much longer in the bud and naturally a larger flower.

Joanna Hill—The blooms are clear yellow, deepening at the center and hold their color under artificial light. It produces strong stems without pinching and can be grown at low cost and sold at a more reasonable price than Souv. de Claudius Pernet.

Lum's White—A rejuvenation of the old Double White Kilmarney, showing an improvement in growth, a larger flower, and a much purer, white color. The growth is much longer and the general appearance of the plant better in every way than the original variety.

Madame Butterfly—A glorified Ophelia. The individual bud is larger and the color tints of Ophelia are greatly intensified, making it a harmony of bright pink, apricot and gold.

Mrs. R. M. Finch—A Polyantha Rose that is displacing Cecile Brunner for growing in the greenhouse. Color, deep shell pink, slightly larger in flower than Cecile Brunner and one of the best of the Baby Rambler types.

Orange Nassau—This brilliant Rose distributed for the first time last year has proved very popular with our customers. "Orange Nassau" is one of the most brilliant Roses that it is possible to grow in a greenhouse, very fragrant and a nice grower. The illustration very truly conveys the color of this remarkable Rose.

Peter's Briarcliff—A deep pink sport of the ever popular "Briarcliff." A duplicate of "Briarcliff" in every way except color, which is many degrees deeper.

Pink Delight—A beautiful brilliant pink Rose, stem and foliage all that can be desired. The fragrance is more pronounced in this Rose than in any others. Rather a tall grower, but if given sufficient head room will give a splendid account of itself.

President Herbert Hoover—A splendid combination of cerise pink, flame, scarlet and yellow, and this combination gives a dazzling effect. The flower is large and the bud beauti-

Orange Nassau

fully pointed. The petals are broad and thick, retaining this characteristic days after the flowers are open. It is a splendid keeper, and wonderfully fragrant.

Rapture—A much improved sport of Mme. Butterfly. The color is an exquisite salmon shade, deeper than the very best Butterfly, with the same golden flush at the base of the petals. As a sport of Butterfly, Rapture shows all its good characteristics with larger foliage and a much heavier growth.

R. M. S. Queen Mary (Patent No. 249)—The color is a beautiful, striking, glistening shade of salmon-pink, which lights up beautifully under artificial light and makes a marvelous decoration. The growth is particularly strong and free, the leaves thick and lustrous, and are entirely immune to mildew or black spot.

Souvenir—The yellow sport of Talisman, corresponding with the parent in every way, growth, freedom, size, etc., except that the color is a clear yellow.

Talisman—A seedling of Ophelia and Souv. de Claudius Pernet. "Like a choice, rare cameo, this new seedling Rose stands out in rich and distinctive relief against any background." Talisman is already so well known that it needs no further comment.

Yellow Gloria (Patented)—An orange sport of Talisman, a most pleasing color under any light. Has more petals than any of the Talisman types and produces well shaped buds on long stiff stems. A wonderful keeper and shipper, and very productive at all seasons. A fine, clean, healthy grower.

White Finch—There are many sports of this sterling variety, and the one we offer is a pure, clear, glistening white that is proving just as popular as the parent "Mrs. Finch."

Tender Bedding AND GREENHOUSE PLANTS

Heliotrope Royal Fragrance

AGERATUM

Fraserii—Dwarf blue, compact growth, an early bloomer and excellent for edging. **3-inch plant \$2.00 per dozen, \$15.00 per 100.**

BROWALLIA

Major—Bright violet-blue flowers that bloom profusely from June until frost. If desired can be brought inside to flower indoors during the winter. Pinch back plants when young to induce a nice compact growth. Height, 10 to 12 inches. **Price: \$2.00 per dozen, \$15.00 per 100.**

BUDDLEIA

Asiatica—Begins to bloom in December and continues to do so throughout the Winter season, if the plants are kept growing in a warm house. It produces long spikes of the most beautiful white flowers which have a delightful lilac fragrance. **Price: \$3.00 per dozen, \$20.00 per 100.**

FUCHSIAS

Marvelous Single Fuchsias

Aurora Superba—Sepals light apricot. Petals vivid orange.
Mrs. Rundle—Exertmely long sepals. Salmon-pink. Petals vivid orange.

Wonderful Double Fuchsias

Dollar Princess—Sepals salmon-pink, corolla full double deep violet-blue shading to crimson. Very floriferous. **Price: 35c each, \$3.50 per dozen.**

Sylvia—Sepals salmon-rose turned upwards, corolla semi-double pure white. Strong upright grower. A perfect gem.

Triphylla Fuchsia

Souv. de Henry Henckel—Flowers with long tubes borne in clusters. Tubes, cerise-pink. Petals coral orange. Dark reddish foliage. **Price: 35c each, \$3.50 per dozen.**

New Basket Fuchsia

Marinka—Its trailing habit makes it especially desirable for pot, basket, or vase culture, or it can be grown into beautiful standards. Sepals rosy red, corolla light red shading to violet. Strong grower and very free flowering. **Price: 35c each. May delivery 3-inch pot plants.**

HELIOTROPE

Royal Fragrance—This variety was originally introduced by us about ten years ago, and since that time has practically become the standard variety for growing in mass effect. Dwarf and robust in habit, a very lovely shade of deep blue, it is the most fragrant Heliotrope that has ever been grown. It blooms profusely from June until frost, and is the superlative bedding plant.

There have been many substitutes sent out by other firms for "Royal Fragrance" but as the original introducers, we have always retained sufficient plants to propagate from the original stock sent us, which assures you of receiving the true variety. **Price: 2½", \$3.00 per dozen, \$20.00 per 100. 3", \$3.50 per dozen, \$25.00 per 100. 4" \$5.00 per dozen, \$35.00 per 100.**

LANTANAS

There is no Summer flowering plant that will give better results than Lantanas. They can be absolutely depended on to bloom regardless of weather conditions, and are always a magnificent show of color in the garden.

Delicatissima—Weeping, lilac lavender.

E. Bayard—Bright orange, red and yellow.

Protee—Old rose and golden yellow. **Price: 2½-inch pot plants, 25 each, \$2.00 per dozen, \$15.00 per 100; 4-inch pot plants, 50 each, \$4.00 per dozen, \$25.00 per 100.**

PETUNIA

Double Petunias

Mrs. W. K. duPont Supreme—We distributed the variety, "Mrs. W. K. duPont," and it proved unusually successful. This variety is even larger in size, more double in type, and gracefully fringed. Reminds one of a mammoth fringed Carnation. It is a clear dazzling white in color, and a marvelous variety for bedding purposes.

Wendover—This variety is a great improvement over "Gardenia Flowered." Glistening white in color, and extremely free flowering. **Price on above two Petunias: 35c each, \$3.00 per dozen, \$20.00 per 100.**

VERBENA

Lemon Verbena (Aloysia citriodora)—Lemon scented foliage, which is extensively used to impart a sweet scent to bunches of flowers lacking in a scent of their own. It is also used in flavoring jellies. **Price: 2¼-inch pots, \$1.50 per dozen, \$10.00 per 100.**

Verbena Mayflower—These are very handsome, as bedding plants. They bloom continually from early June until frost, and are very satisfactory when used as cut flower subjects. The particular variety we have to offer, "MAYFLOWER," we consider unusual and novel, which is the reason we include it with our list. It is a beautiful clear appleblossom pink throughout, and does not clash with any other color in the garden. The flowering heads are twice as large as that of any other Verbena, and its lovely soft color appeals to everyone. **Price: 3-inch pots, 50c each, \$5.00 per dozen, \$35.00 per 100.**

HARDY GARDEN ROSES

A Collection of Masterpieces

R. M. S. Queen Mary

Each year we select a few of the outstanding varieties of Roses for this particular honor. This year we suggest the following list, which will give you five of the finest varieties you have ever had in your garden.

CRIMSON GLORY

"Crimson Glory" has been on the market for four years and there is nothing to surpass it either in color, which is a deep vivid crimson shaded ox-blood red and finished with a soft velvety nap, or in its habit of growth, which is very vigorous, producing at all times quantities of superb urn-shaped blooms.

Price: \$1.25 each, \$12.50 per dozen.

ECLIPSE (Patented)

The long stream-lined bud is of rich gold without shading. Petals are long and tough, but not numerous, averaging 20 to 25, with more in the autumn.

Price: \$1.00 each, \$10.00 per dozen.

HINRICH GAEDE

In an unusual shade of Rose there is nothing to equal this variety. Color is a rich, luminous vermillion shaded golden yellow, a color such as is found in the modern Zinnias. Very free continuous bloomer with a rich, fruity fragrance. One of the most charming garden varieties. **Price: 85c each, \$8.50 per dozen.**

ORANGE NASSAU (Patented)

A Rose we introduced for the first time last spring, and it has proven one of the most popular that we have ever distributed. Very unusual shade of color, and while it does not grow into a large bush, still it blooms profusely and its very pronounced Rose fragrance is not the least of its many qualities. Inner petals coral-red with bright orange-buff reverse, and as the flower ages the color lightens to a shrimp pink. When fully open, soft salmon-orange is the general effect of this Rose. **Price: \$1.50 each, \$15.00 per dozen.**

R.M.S. QUEEN MARY (Patent No. 249)

This beautiful variety is quite distinct from anything seen in Roses to date. It is a marvelous combination of vivid shades, a rich glowing blending of salmon and pink, with an orange base. The buds long and pointed; flowers are of marvelous size and form. Very productive and delightfully perfumed. Fine, strong grower and a magnificent variety in every way. **Price: \$1.25 each, \$12.50 per dozen.**

SPECIAL PRICE ON ABOVE COLLECTION \$5.00

"The California Quartette"

Price: \$1.50 each, \$15.00 per dozen

The varieties listed below are the "cream" of the Californian introductions for this year.

Apricot Queen

Apricot Queen (H&S Patent No. 464)—A combination of orange-apricot merging to Salmon-Rose and Phlox-Pink, making this one of the most beautiful colored varieties we have ever had the pleasure of introducing to the American public. Very long pointed buds with excellently placed petal arrangement. An intensified "Mrs. Sam McGredy" in color.

California (H&S Patent No. 449)—A gorgeous shade of ruddy orange toned saffron yellow, with the exterior of the broad petals overlaid Saturn Rose, producing dual tone effect of indescribable richness and beauty. Long pointed buds producing flowers reaching a diameter of five to six inches. Vigorous growth, and healthy glossy foliage add to its attractiveness.

Pink Diamond (H&S Patent Applied For)—The large, bright pink buds produced by this marvelous variety open to light pink blooms of great size, frequently measuring 5 to 6 inches in diameter, and appear in great profusion. The plants are of the same upright growth as the "Talisman" Rose, but are even more robust, and are decidedly resistant to attacks of fungus disease. "Pink Diamond" has created more favorable comment on the part of visitors than has any other variety, and we feel sure this splendid sort will prove to be one of the most valuable of all Roses introduced during 1942.

If Purchased as a Collection

One plant each above four varieties — \$5.00

Heart's Desire (H&S Patent Rights Reserved)—This delightful red Rose was given the highest award in the "All American Rose Selections" trial for the years 1940-41, after two years trial in the various test gardens. In a red Rose, it combines vigorous growth, prolific blooming habit, and magnificent foliage. The superb bud is delightful when it opens up and until the last petals drop. "Heart's Desire" has been found remarkably free from disease and entirely hardy with average protection, even in the most northern latitudes. It should be grown in practically every Rose garden in the country. Fragrance is not the least of its qualities, and the pure even shade of luminous red without any trace of maroon is sun-proof even in the very hottest weather. Everyone should grow "Heart's Desire" and where it is already growing we predict the plantings will be increased considerably.

Heart's Desire

New Roses OF MORE RECENT INTRODUCTION

The following varieties are the Novelties of one or two years ago, which have proved most successful in different sections of the country.

Eclipse (J. H. Nicolas, 1936) (Patented)—The long stream-lined bud is of rich gold without shading. Petals are large and tough, but not numerous, averaging 20 to 25, with more in the Autumn. **Price: \$1.00 each, \$10.00 per dozen.**

Hector Deane (Patent No. 361)—Long, pointed, crimson buds with orange base. Very constant, rampant grower. The petals of this variety reflex in irregular and unusual manner and the perfume is such as is always associated with old-fashioned June Roses. **Price: \$1.50 each, \$15.00 per dozen.**

COPYRIGHT

Hector Deane

Countess Vandal (Patented)—Its long pointed bud, its distinctive shadings of coppery-bronze suffused with soft gold and its form are a continuous "movie" developing new beauty at all times during its long life. **Price: \$1.00 each, \$10.00 per dozen.**

Crimson Glory—The best red Rose in our many years of introducing new Roses. "Crimson Glory" has been on the market for four years and there is nothing to surpass it either in color, which is a deep vivid crimson shaded ox-blood red and finished with a soft velvety nap, or in its habit of growth, which is very vigorous, producing at all times quantities of superb urn shaped blooms. **Price: \$1.25 each, \$12.50 per dozen.**

Dickson's Red (Patent No. 376)—One of the finest red Roses it has ever been our pleasure to distribute from the many fine Roses that have come to us from Ireland. Very lovely rich red in color with long buds beautifully formed and a mellow fragrance. Nice bushy growth about 2 feet tall. **Price: \$1.25 each, \$12.50 per dozen.**

COPYRIGHT

McGredy's Triumph

COPYRIGHT

McGredy's Sunset

Madame Joseph Perraud—This Rose which was awarded a medal as "the most beautiful Rose in France" is carrying on its tradition in America for unusual coloring and habit of growth. The introducer speaks of it as "an enchanting Nasturtium buff straying to a luminous shell pink at the petal edges." It is the nearest approach to a pure buff that we have in Roses, an exquisite variety. **Price: \$1.00 each, \$10.00 per dozen.**

McGredy's Salmon (Patent No. 410)—Exquisite orange-pink symmetrical bud opening to a delightful apricot-salmon. Very fragrant. Extremely free bloomer with an abundance of bronzy green foliage. **Price: \$1.50 each, \$15.00 per dozen.**

McGredy's Sunset (Patent Rights Reserved)—Very aptly named variety as outer petals are clear buttercup yellow tipped orange. Inside is chrome yellow flushed scarlet when it opens. Medium size flowers with a very pleasing fragrance. Long stiff stems and a sun resistant variety. **Price: \$1.25 each, \$12.50 per dozen.**

McGredy's Triumph (Plant Patent No. 190)—Geranium-flushed orange, gradually deepening to rich orange at base. Reminds one of a brilliant ripe strawberry flushed scarlet and orange. Flowers full and of perfect shape. In addition to the unusual coloring of flowers, the extraordinary freedom and habit of growth is something far from the every day Rose. Stems dark mahogany red, foliage extra large, dark, reddish bronze in color. **Price: \$1.25 each, \$12.50 per dozen.**

New Roses OF MORE RECENT INTRODUCTION

Orange Nassau (Patented)—A Rose we introduced for the first time last spring, and it has proven one of the most popular that we have ever distributed. Very unusual shade of color, and while it does not grow into a large bush still it blooms profusely and its very pronounced Rose fragrance is not the least of its many qualities. Inner petals coral-red with bright orange-buff reverse, and as the flower ages the color lightens to a shrimp pink. When fully open, soft salmon-orange is the general effect of this Rose. **Price: \$1.50 each, \$15.00 per dozen.**

COPYRIGHT

Pearl S. Buck

TOTTY'S TEN

For customers who have not grown Roses previously and are anxious to start a Rose garden, this collection of ten plants, two each of five different colors, has proved highly successful. *Our suggestions for this year are as follows:*

**AUTUMN
BETTY UPRICHARD
CALEDONIA
CONDESA DE SASTAGO
E. G. HILL
ETOILE DE HOLLANDE
GOLDEN RAPTURE
KAISERIN AUGUSTE VIKTORIA
MRS. E. P. THOM
PINK DAWN**

Descriptions of above on following pages.

Special Price—Ten Plants . \$7.00

Pearl S. Buck (Patent Applied For)—This new Rose shown at the Gardens on Parade at the World's Fair is most attractive either in its bud stage or fully open flowers. Glowing orange hue when first appearing, softening to a deep yellow tinged apricot as it matures. Very prolific grower with a rich fragrance. Deep green foliage making a very fine foil for this lovely colored Rose. **Price: \$1.50 each, \$15.00 per dozen.**

R. M. S. Queen Mary (Patent No. 249)—This beautiful variety is quite distinct from anything seen in Roses to date. It is a marvelous combination of vivid shades, a rich glowing blending of salmon and pink, with an orange base. The buds long and pointed; flowers are of marvelous size and form. Very productive and delightfully perfumed. Fine strong grower and a magnificent variety in every way. **Price: \$1.25 each, \$12.50 per dozen.**

Signora (Plant Patent No. 201)—A pronounced advance over "Talisman" or "President Hoover." Born and raised on the Riviera it is acclimated to hot dry weather and has ample vigor for our northern climate. Long pointed buds of brownish orange opening to a lighter mandarin and salmon. Beautiful rich green heavy foliage. Much more petalage than "President Hoover" and extremely fragrant. A most prolific grower. **Price: \$1.00 each, \$10.00 per dozen.**

Sterling (Patent No. 21)—A really true pink Rose. The yellow base of the petal enhances the brilliancy of the color to a considerable extent. A fine strong grower giving quantities of flowers throughout the entire season. **Price: \$1.00 each, \$10.00 per dozen.**

ROCKEFELLER CENTER, INC.
50 ROCKEFELLER PLAZA
NEW YORK

June 4, 1941.

Charles H. Totty Company,
Madison,
New Jersey.
Attention of Miss Helen Totty,
President.

My dear Miss Totty:

Offhand I would say that in the last five years or so we have received from your firm upward of five thousand potted roses. Every year they have been good, some years better than others, perhaps, but always satisfactory. The eight hundred roses I received from you a couple of days ago are so outstandingly good and uniform in size that I cannot keep quiet about them, and must tell you.

As a practical grower for many years myself, I know the constant care and attention it requires to bring them to perfection as you have done, and I compliment you on having some people in your organization who have skill and interest enough to accomplish this. It is easy enough to grow two or three dozen in good condition, but when it comes to such a quantity, that is another matter.

It will interest you to hear that the day after your roses were received and planted, one of the outstanding rosarians in this country, who I think is the dean of the profession, frankly admitted to me that these were about the finest lot of pot-grown roses he had ever seen in his long years of experience. On your next trip to New York you must stop in and look at them; I am sure you will be happy to see them doing so well.

Thank you, and congratulations.

Yours very truly,

ROCKEFELLER CENTER, INC.

Sub Zero HYBRID TEA ROSES

Price: \$1.50 each, \$15.00 per dozen

Pink Princess

Break O' Day

These "Wichuriana Hybrid, Hybrid Tea Roses" have proven most successful in all sections of the country.

The plants for the first season are smaller than the average Hybrid Tea, but come along very rapidly and are much larger plants the third year of their planting than any other of the Hybrid Tea type. They have acquired the name "Sub Zero" from the fact that they are resistant to cold and freezing and can be planted in any section of the country successfully. Sub Zero Roses give twice the quantity of flowers that you will obtain from the Hybrid Tea varieties. They have gone through winters as cold as 25° below zero very successfully.

The originator makes the following planting suggestion:

Plant the grafted joint of the Sub Zero Hybrid Tea three inches below the bed level. After complete defoliation in the fall, cover the tops with clean earth and sod and do not uncover the following spring until frost has entirely disappeared.

ANNE VANDERBILT

Named after the wife of the governor of Rhode Island, and is very like "President Hoover" in color, except that it has deeper, richer tones and produces many more flowers than "President Hoover" at any time. These plants are most informal, bearing an abundance of flaming grenadine-pink flowers with yellow shadings, grown in clusters. A very striking garden subject.

BREAK O' DAY

Orange-apricot shaded yellow and overlaid with flesh tints. Fine foliage, large, fragrant flowers. Extremely strong grower and a first-class Rose.

PINK PRINCESS

Well named when one sees the graceful, sturdy habit of this variety. Very large, fragrant, clear pink flowers. Vigorous grower and weather resistant. Produces much finer flowers than "Radiance" and more of them throughout the season. A great improvement on that variety.

Sub Zero Collection . . . ONE EACH OF ABOVE 3 VARIETIES \$4.00

Standard VARIETIES OF ROSES

Dormant plants, delivery up to May 1st—Price: 85c each, \$8.50 per dozen. Plants from 6-inch pots, delivery May 1st onwards—Price: 95c each, \$9.50 per dozen

The following list are culled from the large list of Roses that have been in cultivation for many years, and are varieties that are noted for their general satisfaction.

Autumn—Color, a gorgeous combination of cerise, scarlet and yellow. The firm compact bud of medium size is bright golden yellow, stained crimson without and deepening to scarlet-orange in the center. They open to semi-double splendidly shaped flowers of glorious crimson and gold with stiff petals.

Betty Uprichard—Coppery red buds, opening to semi-double flowers of above average size; brilliant orange carmine on outer surface of petals, showing light salmon reflexes; spicy fragrance.

Caledonia—A most desirable white. Exceptionally long, pointed bud opening to a very double, high-centered, long lasting, very large, moderately fragrant flower. Continuous free bloomer.

Christopher Stone—Bright velvety scarlet flowers of good form, opening fully to show its golden stamens; fragrant. Vigorous, upright grower, free flowering, and does not appear to be troubled by heat. A brilliant color.

Condesa de Sastago—Copper and yellow. Bud like ball of gold striped with red. When open copper on inside with reverse of gold.

Edith Nellie Perkins—A Rose of outstanding merit, vigorous in growth and free flowering. Long, pointed bud; flower of good size, long lasting and fragrant, double; outside of petals orient-red shaded cerise-orange; inside salmon-pink.

E. G. Hill—The flower is dazzling scarlet, shading to a deeper pure red as it develops. It produces long stems naturally and the foliage develops freely and is of fine color.

Etoile de Hollande—Brilliant red blooms of magnificent size, perfect in half open state, showing clean, attractive centers when fully open; petals enormous; very fragrant. Plants branching; particularly free flowering and healthy.

Golden Dawn—An ideal yellow garden Rose. Color ovoid lemon yellow bud heavily splashed with crimson before opening, developing into a well formed, sweetly scented large, double, yellow reminding one of the old favorite Marechal Neil. Strong, vigorous and free flowering.

Golden Rapture—A splendid yellow Rose of upright growth. The pure yellow buds are of ideal form. Beautiful, large, double flowers which last without fading. A splendid variety for cutting and for bedding.

Golden Dawn

Hinrich Gaede

Hinrich Gaede—In an unusual shade of Rose there is nothing to equal this variety which is another of our introductions of two or three years back. Color is a rich luminous vermilion shaded golden yellow, a color such as is found in the modern Zinnias. Very free continuous bloomer with a rich fruity fragrance. One of the most charming garden varieties.

Kaiserin Auguste Viktoria—Creamy white, immense substance, petals smooth and nicely arranged. A popular variety.

Lady Alice Stanley—The outside petals are a deep rose-pink; inside pale flesh, slightly flushed with a deeper shading, a most beautiful color combination. Blooms are very large and full, of great substance and productiveness and one of the most fragrant Roses in existence.

Madame Jules Bouche—One of the finest garden Roses in the white section; of splendid form, and a very strong grower.

Mrs. Charles Bell—Lovely shell pink buds and blooms of fine, globular form with shadings of soft salmon; sweetly perfumed. Plants are notably strong and bushy, bearing good foliage, and is seldom attacked by disease.

Mrs. Erskine P. Thom—A strong, healthy grower, equal in strength to the Radiance type of Rose. Beautiful, dark bronzy green, disease resistant foliage. Rich lemon yellow flowers, very sweetly scented and a very free flowering variety.

Mrs. Sam McGredy—Beautiful long-pointed buds opening to large double high-centered flowers of glistening scarlet-copper-orange with deep red shadings on the outside of the petals.

Picture—Splendidly formed, medium-sized flowers of velvety Rose-pink, the petals pleasingly reflexed. Well named, as both form and color are very lovely. A fine cutting Rose, unusually free blooming.

Pink Dawn—An exceptionally charming Rose of highest merit, with an abundance of perfectly formed, full double flowers of a deep rose color, opening to lovely pink blooms, tinted with orange at the base of the petals.

President Hoover—A splendid combination of cerise pink, flame, scarlet and yellow. Gives the most dazzling effect ever seen in any Rose. The flower is large and the bud beautifully pointed. Petals are broad and thick, retaining this characteristic days after the flowers are open. Splendid keeper and wonderfully fragrant.

Radiance—A splendid and popular Rose, deep pink in color. Will produce 3 foot breaks without pinching; almost mildew proof, and a wonderfully fine Rose to handle.

Floribunda AND IMPROVED POLYANTHA ROSES

Price: \$1.00 each, \$10.00 per dozen, except where otherwise noted

Floribunda Roses are proving very popular in practically all sections of the country. Medium in height and disease resistant. Flowering practically the entire season and retaining their vivid colors even in the very hottest Summer weather. Ideal for planting in front of evergreens, if one wishes to add color. Plant 18 inches apart for best effect.

Betty Prior (Plant Patent No. 340)—Improved form of Else Poulsen. Outside of petals dark carmine, inside several shades lighter. Borne in large clusters on strong stems, very fragrant. Foliage pale green, tinted purple; very vigorous grower. Resistant to mildew and diseases. **Price: 85c each, \$8.50 per dozen.**

Cheerio—Clear Mallow pink shading to a deeper Rose at the base of the petal. Reverse of the petal is a luminous Rose madder that is most effective. Quantities of brilliant double flowers in massive clusters.

Donald Prior (Patent Applied For)—Flowers semi-double, cup-shape, bright scarlet, flushed crimson; much larger than "Else Poulsen." Fragrant; foliage dark green; very free flowering. One of the most striking colors of the entire group. **Price: 85c each, \$8.50 per dozen.**

Red Velvet—The most magnificent red Rose that it has ever been our privilege to see, it is such a vivid rich crimson color. The flowers look like pieces of brilliant red velvet scattered around, and it is the type of Rose that will attract your attention the instant you enter the garden where it is growing. Vigorous grower and very free flowering.

Rosenelfe—Charming Rose of miniature Gardenia-like form and silvery rose-pink color. Flowers about 2½ inches across, borne singly all through the summer months. **Price: 85c each, \$8.50 per dozen.**

Smiles (Plant Patent No. 331)—A lovely variety deserving the name. Brilliant salmon-pink flowers, semi-double, 3 inches across, in great masses all the time and of great duration in all weather. Medium growing plants, branching with handsome foliage. **Price: 85c each, \$8.50 per dozen.**

Sunmist—Clear light sulphur yellow shading in canary yellow at the base of the petal. Large imposing flower clusters. Unsurpassed for massing in beds or borders. Graceful long pointed buds.

Smiles

Dwarf POLYANTHA OR BABY RAMBLER ROSES

These were the original type of Polyantha Roses from which the Floribundas have developed. Dwarfier in growth and larger in the individual flowers in some instances. No special culture or soil is required to have these Baby Rambler Roses give you good results. They flower practically the entire season and prove generally satisfactory wherever grown.

Dormant plants, delivery up to May 1st—Price: 85c each, \$8.50 per dozen.

**Plants from 6-inch pots, delivery May 1st on-
onwards—Price: 95c each, \$9.50 per dozen.**

Baby Chateau—The flowers are large, semi-double produced in large clusters, velvety dark red in color, reminding one somewhat of the popular Rose Chateau de Clos Vougeot. Dark, shiny foliage, a real acquisition.

Cameo—A very beautiful and distinct shade of shell pink and salmon, over-shadowed with a golden sheen.

Cecile Brunner—Sometimes called the Sweetheart, Mignon and several other names. Dainty miniature Rose of light pink in color. One of the best of the Polyanthas.

Dagmar Spath (The White Lafayette)—Pure white flowers on large trusses which are a show the entire summer. The best white Polyantha to date.

Else Poulsen—Flowers medium size, semi-double, lasting bright rose pink.

George Elgar—One of the old reliables in yellow Polyanthas. Very fine grower, excellent as a light colored Polyantha used with "Cecil Brunner."

Improved Lafayette—Very profuse flowering, strong growing Polyantha. Crimson scarlet in the bud, expanding to rosy cerise when fully open. Individual flowers about the size of Paul Scarlet Climber.

Newer Varieties OF CLIMBING ROSES

The following are the more recently introduced list of Climbing Roses that are larger in the individual flowers and in many instances are used for cut flower work.

Apricot Glow (Patent No. 200)—Magnificent climber with medium size flowers of a light apricot color shading yellow at the base. Produced in large trusses. The flowers are double, nicely formed of a pleasing fruity fragrance. **Price: \$1.00 each, \$10.00 per dozen.**

Blaze (Patent No. 10)—Everblooming Scarlet Climber. Combines the vigor, beauty and hardiness of Paul's Scarlet Climber with the everblooming qualities of a favorite Hybrid Tea Rose. Propagated from blooming wood only. **Price: \$1.00 each, \$10.00 per dozen.**

Copper Glow—Another addition to the "Glow" Roses we previously introduced, "Golden Glow" and "Apricot Glow." Now comes "Copper Glow," a deep coppery-orange climbing Rose with a delightfully spicy fragrance, and the color was the sensation of the season in the Brownell Research Gardens. An exquisite Climbing Rose. **Price: \$1.50 each, \$15.00 per dozen.**

Doublons (Plant Patent No. 152)—While not exactly an everblooming variety of Climber—Doublons has a tendency to repeat flowering in midsummer. A Hybrid of the native Rose Setigera. Clusters of very large, cup shaped, saffron yellow blooms opening one after another and prolonging the flowering season. Long, heavy canes. A very fine yellow Climbing variety. An introduction of Horvath's in 1934. **Price: \$1.00 each, \$10.00 per dozen.**

Easlea's Golden Rambler (Patent No. 114)—A magnificent climbing yellow Rose. Beautifully formed double flowers of a rich golden yellow, enhanced by a sheen of light orange. Blooms artistically arranged in large clusters with a most pleasing fragrance. Does not show up to its best advantage until the second years. **Price: \$1.00 each, \$10.00 per dozen.**

Golden Glow (Patent No. 263)—A fine companion for the "Apricot Glow" since they were originated by the same grower. Very vigorous plants with semi-double flowers of pure bright yellow, growing in attractive clusters. **Price: \$1.00 each, \$10.00 per dozen.**

King Midas (Patent Rights Reserved)—A J & P Seedling of golden yellow, throwing 8 to 10 ft. shoots as soon as well established. Flowers appear in clusters of four to six and are quite prolific. Tight buds have a slight reddish tint, but open to a deep golden shade and when fully open are a creamy yellow. Bright glossy foliage. Disease resistant. **Price: \$1.50 each, \$15.00 per dozen.**

The New Dawn (Patented)—The everblooming Dr. Van Fleet. This variety is identical with its parent in size, formation of bud and color, etc., but it flowers continuously throughout the Summer and Fall months. **Price: \$1.50 each, \$15.00 per dozen.**

© J. & P. CO.

King Midas

Climbing HYBRID TEA ROSES

Price: \$1.00 each, \$10.00 per dozen

Each season we have a demand for a few plants of the Climbing Hybrid Tea Roses which flower as do the Hybrid Teas throughout the season. This particular type dies down to the ground in the Winter and throws up new growth from the roots each succeeding year. They are not as well known as the old-fashioned Climbing Roses, but give a great many large flowers throughout the season and for this reason are in demand by amateurs and Rose growers. The list given below includes the best varieties in their respective colors.

Grass An Teplitz—An intense rich scarlet shading to velvety crimson. Luxuriant fragrant blooms produced in great profusion on strong plants. Continuous bloomer.

President Hoover—Splendid combination of cerise pink, flame, scarlet and yellow. Large flower, beautifully pointed bud, and broad thick petals. Splendid keeper and wonderfully fragrant.

Sunburst—The bud is long and pointed and when first opening is a deep shade of orange-copper. When fully developed, in common with almost all other yellow Roses, the color is somewhat lighter.

Talisman—Combinations of shadings of gold, apricot, yellow, deep pink and old rose. Long and well pointed bud, develops into full double flowers. Foliage, green and glossy.

Standard VARIETIES OF CLIMBING ROSES

Dormant plants, delivery up to May 1st—Price: 85c each, \$8.50 per dozen.

Plants from 6-inch pots, delivery May 1st onwards—Price: 95c each, \$9.50 per dozen.

The following are a list of the older and more widely distributed varieties of Climbers.

American Beauty—The Climbing form of the old-fashioned and popular "American Beauty" Rose. Deep pink in color, but more highly prized on account of its very heavy fragrance.

American Pillar—Single flowered variety of great beauty. Flowers 3 to 4 inches across borne in immense clusters. Brilliant shade of pink with clear white eye; wonderfully decorative even when not in flower as the blooms are followed with brilliant red berries.

Dr. Huey—Semi-double, rather large flowers of the very deepest crimson maroon, shaded black, an exquisite variety.

Dr. W. Van Fleet—Beautiful flesh pink, borne on long stems; buds long and pointed, plants very strong, brilliant dark glossy foliage, mildew proof, splendid for cutting.

Emily Gray—The best yellow Climbing Rose ever introduced. Color clear golden yellow, all flowers are double, with long buds, and attractive, dark green foliage. Very free flowering, splendid growing habits.

Jacotte—Color shrimp pink or light salmon orange shaded golden yellow at base; flowers fully 2½ inches in diameter, delightfully scented; rich, dark green, glossy disease-resisting foliage.

Mary Wallace—A Pillar Rose growing 6 to 8 feet high, with large, glossy foliage blooming with great freedom in the Spring, and bearing quantities of flowers in the Spring and early Summer. Flowers about four inches across, semi-double, bright clear rose pink, with salmon base in the petals.

Mme. Gregoire Staeckelin—The long pointed full fragrant flowers are crimson, and when fully opened are an iridescent pearl pink inside. It has been predicted that this variety is probably the pioneer of a new race.

Paul's Scarlet Climber—The flowers are medium in size, being semi-double and carry three to six flowers on each spray. Paul's Scarlet Climber has received several gold medals.

Silver Moon—Pure white in color with yellow stamens in the center, showing up a very attractive variety. Foliage bronzy green; stems of flowers very long and fragrance very lasting.

SINGLE ROSES

Dormant plants, delivery up to May 1st—Price: 85c each, \$8.50 per dozen.

Plants from 6-inch pots, delivery May 1st onwards—Price: 95c each, \$9.50 per dozen.

This list is limited, but for cut flower purposes and table decorations, Single Roses have always been very popular.

Cecil—Very large single flowers of buttercup-yellow, containing five petals. Plant of splendid habit and growth.

Dainty Bess—One of the best known of the Single Roses. Soft rose-pink almost like a wild Rose except that it is distinctive by the large cluster of wine-colored stamens. A really gorgeous Rose, containing about six petals.

Innocence—Beautiful clear white flowers with wine-red stamens tipped with gold. Quite a large flower for this type of Rose, containing twelve petals.

Irish Fireflame—An orange-crimson flower shaded pink and gold. A marvelous grower and very fragrant, containing five petals.

K. of K. (Kitchener of Khartoum)—Scarlet-red buds that open to brilliant red with a blackish sheen, containing ten petals.

TREE ROSES

Price: \$4.00 per plant, \$40.00 per dozen

Our Tree Roses are grown specially for us by an expert in this line, and while good Tree Roses are very scarce, we invite you to write for your requirements.

SHRUB ROSES

Our offerings in this type is limited, but very dependable. As individual specimens or mixed in Shrubbery borders, the varieties listed below give grand results.

Hugonis—An early blooming Shrub Rose, covered with small single, pale yellow flowers. Attains height of five to six feet if allowed to grow along naturally. **Price: 85c each, \$8.50 per dozen.**

Lipstick—An everblooming Shrub Rose similar in habit to Skyrocket, producing enormous flower clusters during the whole season. The clusters consist of medium sized, single flowers, clear cerise with salmon shadings. The yellow stamens are especially attractive. A real addition to the Shrub border. **Price: \$1.00 each, \$10.00 per dozen.**

Skyrocket—Everblooming Shrub Rose producing large flowering clusters the entire season of medium sized brilliant red blooms. Its sturdy upright habit makes it an ideal plant to use in combination with various Shrubs. **Price: 85c each, \$8.50 per dozen.**

Rose Lipstick

HARDY PERENNIALS

Varieties starred (*) are suitable for Rock Garden

Varieties daggered (†) are suitable for Cut Flowers

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

Perennials are the mainstay of all gardens. Once planted, they remain permanently in your garden or border, and are very showy items throughout the season. Perennials are satisfactory in the way they can be selected for flowering at the particular season or seasons one is at home to enjoy them. They do not need perpetual care so if you have only a little time to devote to gardening, you can still enjoy flowers by planting cut flower subjects as designated in the following list.

Anemone Queen Charlotte

ACHILLEA

*†**Ptarmica, the Pearl**—Small heads of pure white flowers, excellent for cutting. Blooms from midsummer to October. About 18 inches high.

ACONITUM (Monkshood)

†**Fischeri**—A fine hardy variety with dark blue flowers in September and October, 2-3 feet in height. The Aconitums do well in a shady or half shady location.

†**Sparks Variety**—The darkest blue of all, flowering in June and attaining a height of about 2½ feet. Does well in a shady or half shady location. **Price: \$5.00 per dozen, \$35.00 per 100.**

AETHIONEMA (The Stone Cress)

Dwarf Herbs and Sub-Shrubs, allied to Iberis, mostly with small narrow leaves. Blooming in May and June.

***Warley Rose**—A neat and compact Persian Candytuft with blue foliage and beautiful pink flowers, resembling a small Daphne. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

AJUGA

***Brockbanki**—Bronze foliage, with blue flowers. Height, 4 inches.

ALYSSUM (Rock Madwort)

***Saxatile Citrinum**—Light yellow form of Compactum.

Identically the same habit of growth. An ideal plant for the early Spring garden. Height, 12 inches. **Price: 35c each, \$3.50 per dozen, \$25.00 per 100.**

***Saxatile Compactum**—Splendid plant for the rockery or border, growing a foot high; golden yellow flowers with dense, compact heads. 1 foot. April and May.

ANEMONE JAPONICA (Windflower)

One of the best of the Fall blooming plants, for use as cut-flowers or where one requires a show spot in the garden. These plants attain a height of from 4 to 4½ feet, and will do equally well in sun or shade; they bloom from early September until cut down by the frost.

†**Alice**—When the flowers first appear they look like Roses, and when they are expanded the silvery pink petals are suffused with bright carmine.

†**September Charm**—A lovely variety, a cross between Anemone Hupehensis and Japonica Queen Charlotte, combining the good qualities of both. Flowers of lovely silver-pink, shaded with rose and mauve, are produced in great profusion from September to hard frost. Height, 2 feet.

†**Whirlwind**—Semi-double, pure white.

†**Queen Charlotte**—One of the most beautiful plants in our Fall gardens, blooming in September and October. Grows about 18 inches high and is excellent for cut flowers in the house. Semi-double; beautiful light pink. 3-inch pots only.

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

Aster Harrington's Pink (Description Page 36)

ANTHEMIS (Hardy Marguerite)

‡**Moonlight**—A fine compact and upright growing variety obtaining a height of 2 feet, and literally covered throughout the Summer months with quantities of pale lemon yellow Daisy-like flowers about 2½ inches in diameter. Excellent for cutting as well as fine showy variety for the hardy border. **Price: 50c each, \$4.50 per dozen, \$30.00 per 100.**

ANCHUSA (Alkanet)

‡**Barrelieri (Early Bugloss)**—A delightful early blue flower, more compact and bushy in growth than Anchusa Italica, Dropmore. Blooms in May and is covered with small, dark blue flowers with pinkish yellow throats. About 2½ feet high and thrives in full sun.

‡**Dropmore Variety**—Rich gentian blue; one of the earliest of the blue flowers. Plants form beautiful specimens, 3 to 4 feet high. One of the most exquisite blue flowers for the garden. June to August.

*‡**Myosotidiflora**—This Dwarf Anchusa comes into bloom in May, and continues blooming for about six weeks. The flowers somewhat resemble Forget-me-nots but are the brilliant blue of the tall Anchusa. It grows about 1 foot high and is admirably adapted to rock gardens or borders.

ARABIS (Rockcress)

***Florepleno**—Lovely double pure white blooms. When grown in mass it resembles a solid bed of Lily-of-the-Valley if one views it from a short distance. Flowers in early Spring. Height, 12 inches.

***Rosea**—Similar to Florepleno in habit of growth, but flowers a beautiful shade of pale pink.

ARTEMISIA

Lactiflora—One of the most useful tall plants we have blooming in August and September. Grows about 4 feet high and makes a splendid foliage background for Phlox and Summer Lilies. The milk white bloom is borne on graceful sprays, producing a lacy effect.

***Silver King**—A very useful plant, growing about 3 feet high and blooming in early Summer. Producing beautiful sprays of mistlike flowers with silvery gray foliage adding an effect of lightness among the dark green foliage of the other Perennials in bloom at that time.

‡**ASTILBE—See Spireas**

AQUILEGIA (Columbine)

***Chrysantha Silver Star**—Creamy white variety.

Crimson Star—A decided new break in color in Columbines. A very lovely rich crimson, with a white center. An excellent introduction.

***Shades of Blue**—Running the gamut from light pale blues to deep purple.

***Shades of Pink**—Pale pink to deep cerise colors.

Myosotidiflora

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

†**Howard's Hybrids**—These charming colors run from light blue through all the shades of light pink, creamy white, delicate lavender, to brilliant scarlet. When massed in mixed color in the Perennial border they give an effect of airy daintiness not surpassed by any other flower. Assorted colors only.

†**Mrs. Scott Elliott's Hybrids**—Assorted shades of long spurred varieties.

Yellow Gem—A very fine clear shade of yellow.

ASTERS (Michaelmas Daisy)

Hardy Asters or Michaelmas Daisies come in practically every shade of color with some varieties very useful as cut-flower subjects. Since they are rampant growers it is not necessary to grow them in large quantities in order to have a splendid show during the month of September.

†**Beechwood Challenger**—Absolutely a true red Aster, very fine sturdy grower, attaining a height of about 4 feet. The red color shows up in delightful contrast with the bright yellow center. Fine bushy upright grower. Absolutely disease resistant.

Price: 50c each, \$4.00 per dozen, \$25 per 100.

British Queen—Soft lavender blue, semi-double, unusually large, open flowers with pale yellow center. A vigorous growing, well branched plant that comes into bloom early September. Height about 4 feet. Excellent for cutting and decorative work.

†**Harrington's Pink**—The very handsomest pink hardy Aster, or Michaelmas Daisy introduced to date. Clear shining pink in color, making a magnificent foil for the many handsome blue and white varieties already in cultivation. Large flowers of bright dainty pink, attaining a height of about two or two and a half feet. **Price: 35c per plant, \$3.50 per dozen, \$25.00 per 100.** (Illustrated Page 35.)

†**Mount Everest**—A wonderful white Aster. It forms very tall, well shaped, pointed pyramids with an abundance of lateral growths which flower right down to the ground. The flowers are large and dead white with a very small eye. Healthy foliage. 3-4 feet.

†**Red Rover**—Rich deep wine red. Looks like double flowers when first opening, but forming a distinctive cup with gold disk at the bottom when fully mature. A very strong grower.

*†**Star of Wartburg**—A giant form with large individual flowers on fine strong, erect stems a foot high. Blooms very early and makes a fine display with its dark Lilac-blue flowers with orange center.

*†**Violetta**—The finest blue Aster in a collection of 425 varieties. Flowers from the ground up, unlike other types of Hardy Asters, and is a rich violet blue in color. A splendid cut flower as well as a beautiful subject for mass effect. Height, 3 feet. Flowering in September and October. **Price: 75c each, \$7.50 per dozen for 2½-inch pot plants.**

†**White Climax**—Pure white. 4 feet high.

*†**Wonder of Staefa**—Exceptionally large flowers, almost 2½ inches across, of a soft wisteria-violet shade, with large yellow centers. This Aster has a longer blooming period than any other variety, flowering from late August to frost. The habit of growth is open and branched, so that the individual flowers are displayed to their fullest beauty. We consider it, both for cutting and table decorations, the finest Aster introduced. **Price: 35c each, \$3.50 per dozen, \$25.00 per 100.**

*†**Niobe**—Brilliant white flowers growing in a perfect ball about 9 inches high. Flowering in September and October.

BAPTISIA (False-Indigo)

†**Australis**—Very attractive dark blue, pea shaped flowers in long curving racemes, somewhat similar to Lupines, but more hardy in every way. Blooms in June and is about 2 feet high. Suitable for the hardy border or wild garden and not at all particular as to soil requirements.

BOLTONIA (False-camomile)

†**Asteroides**—Flower heads pure white; flowering at the same time as the popular Michaelmas Daisies. 5 to 6 feet.

†**Latisquama**—Beautiful pink flowers. Same type as above. 5 feet.

BEGONIA

†**Evansiana**—A perfectly hardy Begonia which will live outdoors during the winter if protected with just a few leaves. Showy pink flowers borne with the greatest profusion during September and October. Exceptionally nice plant for all summer bloom in shady locations. Height about 2 to 2½ ft.

Just before going dormant several dozens of small bulblets, which form on the stem, drop to the ground. These come up in the Spring and help to spread the colony of bulbs very rapidly. No care need be given these young bulbs. They handle themselves beautifully. **Price: 35c each, \$3.50 per dozen.**

†**White Bouquet** (Patent Rights Reserved)—A new hardy Buddleia with extra long, rounded spikes of pure white glistening flowers. The lower florets on the spikes remain clean until all buds open. Very fragrant and the dark green foliage has a lovely silvery sheen, a perfect setting for the blooms. The white seedling of the popular "Ile de France" and just as hardy. This was a long wanted Shrub, because white in the garden during the Summer months is very much sought after, and this variety flowers from July until frost and will give quantities of cut flowers for the home. The long, graceful sprays are very decorative and a delightful acquisition in bouquets with other Summer flowers. (2½" pot plants for Spring delivery.) **Price: 75c each, 3 plants for \$2.00, 12 plants for \$7.50.**

A New Variety of Butterfly Bush

Aster Star of Wartburg

Dwarf Hybrid Border Asters

These Asters make magnificent border subjects and are splendidly adapted for rock garden work since they only attain a height of about 9 inches and are absolutely covered with flowers during the month of September. They are an acquisition to rock garden enthusiasts on account of their magnificent colors and free flowering habit. Also they are in flower at a time when flowers in the rock garden are scarce.

*†**Alpine White**—A dwarf Hardy Aster, flowering in late May.

*†**Nancy**—Of dwarf bushy habit and very free-flowering, the plants being covered with pale flesh-pink flowers toward the end of September and early October, 9 inches.

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

BUDDLEIA (*Butterfly Bush*)

✦ **"Charming"**—Vigorous and very free flowering, producing a profusion of large lavender pink trusses continuously throughout the Summer. A striking ornament for the garden, also extremely valuable as a late Summer cut-flower. Small young plants set out in the Spring quickly grow to a height of 4 to 6 feet and of about the same diameter. Few other plants have attracted as much attention and favorable comment when shown for the first time. We suggest the pinching off in July of the first flower spikes showing, to aid the development of side shoots, which will bring better flowers later in the season. **Price: 50c per plant, \$5.00 per dozen.**

✦ **Dubonnet**—Color is an exact counterpart of the popular French Wine Dubonnet, a shade which has recently been popularized in dress fabrics. In sunshine and under the lamp it glows almost a true red. The firm cylindrical spikes are snugly set with individual flowers of good size that do not sunburn. The plant is of robust erect growth with strong stems; the leaves are large and of firm leathery texture. A good late Summer cut-flower harmonizing well with other outdoor blooms. **Price: 50c per plant, \$5.00 per dozen.**

✦ **Ile de France**—A symmetrical bushy Shrub, attaining a height of 3 to 4 feet with long spikes of fragrant flowers of vivid violet-purple in color. Blooms the latter part of July until late in September. **Price: 35c per plant, \$3.50 per dozen.**

✦ **Orchid Beauty**—A splendid new variety of soft cattleya-lilac with a brilliant orange eye. Somewhat similar in color to the well-known variety "Fortune" but differing from it by having long, tapering spikes, similar in form and size to the popular "Charming." A real addition to the Buddleia list. **Price: 75c each, \$7.50 per dozen.**

CAMPANULAS (*Canterbury-bells or Bellflower*)

These lovely flowers have a great variety of color and form and the taller varieties are useful for cut-flowers as well as in the hardy border.

✦ **Medium**—White, pink.

✦ **Calycanthema**—Cup-and-saucer. Blue, white, lavender.

✦ **Double**—Blue, white, pink.

✦ **Persicifolia, "Telham Beauty"**—One of the best introductions of late years. With its single, rich blue, large, bell-shaped flowers, this variety is a most beautiful and attractive plant for the Perennial border. Excellent for cutting. 2 to 2½ feet. June, July.

✦ **Telham Beauty White**—Pure white form of "Telham Beauty."

✦ **Double Blue**—Deep blue form of the above. **Price: 50c each, \$5.00 per dozen.**

CATANANCHE (*Cupid's Dart*)

Narrow grayish leaves, long stalked blue heads of flowers. Used often for winter bouquets.

✦ **Caerulea**—Profuse heads of deep blue flowers on long stems. Excellent cut flower subject, flowering July, August, and September, on stems about 18 inches high.

CENTAUREA (*Knapweed*)

✦ **Montana**—The Perennial Cornflower. Grows about 2 feet high, bearing large violet-blue flowers from July to September. An excellent carrying color in the garden.

CERASTIUM

✦ **Tomentosum**—Silvery, low-growing foliage plants which is used very largely for planting dry, sunny spots. Carpet growth. May to mid-June.

CHELONE (*Shellflower*)

✦ **Barbata**—Hardy border Perennial of Penstemon-like habit, producing long spikes of brilliant, scarlet flowers. Has not been grown very extensively in this country as yet. Height, 3 feet. July to September.

* **Lyonii**—An old-fashioned Perennial that grows beautifully in acid soil, attaining a height of about two feet and producing deep pink flowers in late Summer and Fall.

CHRYSANthemum MAXIMUM (*Shasta Daisy*)

✦ **Chiffon**—A daintily frilled Shasta which grows 18 inches tall. The flowers are formed by a double row of narrow petals, frilled and flared at the edges. The center is a clear yellow. The flower is about 3 inches across. The general effect in the garden and in a vase is one of light airiness and pleasing daintiness.

✦ **Esther Read**—Very large full double Anemone type, flowers of pure white, rare and unusual, flowering early in the year and continuing to do so until heavy frosts. The finest herbaceous plant that has been introduced in many years. Awarded prizes too numerous to mention. **Price: 50c each, \$5.00 per dozen.**

✦ **The Speaker**—The finest of the Chrysanthemum Maximum type, with extremely large flowers.

✦ **Zinnia Flowered Daisy**—Attractive prim Zinnia-like flowers, 4 inches across. Very double showing the yellow center only at the last stage of bloom. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

COREOPSIS (*Tickseed*)

✦ **Lanceolata Grandiflora**—Rich golden yellow. One of the finest flowers for cutting ever introduced to cultivation. Height, 3 feet. June to September.

DAPHNE (*Garlandflower*)

* **Cneorum**—The gem of rock garden shrubs, blooming heavily twice in the season with clusters of Arbutus-like flowers, scented sweetly. **6 to 9-inch spread, 75c each, \$7.50 per dozen. 9 to 12-inch spread, \$1.00 each, \$10.00 per dozen.**

A Miniature Garden FOR YOUR HOME

The list of plants given below will give you quantities of cut flowers for your house and be a colorful sight while growing in your yard or garden. Can be planted as a small garden or border, but if your landscape conditions do not adapt themselves to plant a garden we suggest using the same material for small borders.

2 Hybrid Delphinium (blue).....	\$2.50
2 Day Lilies (yellow).....	.50
4 Phlox Divaricata (blue)	1.00
4 Phlox (assorted), tall.....	1.00
6 Canterbury Bells (pink, blue, white)...	1.50
6 Orchid Dahlias (assorted).....	1.50
6 Hardy 'Mums (assorted).....	1.50
4 Gaillardia (yellow, red)	1.00
4 Hardy Ageratum (blue).....	1.00
4 Painted Daisies (pink).....	1.00
2 Baby Breath (white).....	1.00
4 Garden Pinks	1.00

Special Price on Above Collection—\$10.00

DELPHINIUMS

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

SIR GALAHAD TYPE

This is the pure white strain that originated on the Pacific Coast. Magnificent spires of pure white double flowers of enormous size. **Price: \$1.00 per plant, \$10.00 per dozen.**

SELECTED SORTS

These can also be had in individual colors. That is, if the customer wishes light blue or dark blue flowers for certain places in the garden, they may specify their choice in ordering. **Price: \$1.00 per plant, \$10.00 per dozen.**

FIELD GROWN CLUMPS

These are very fine types and colors but it is not possible to procure them in individual colors. In other words, they are an assortment of light and dark shades and we would not be in a position to designate just how many of one shade you would get, but where display of flowers is required in your garden and you are not particular as to the individual colors of the same, these plants are ideal for the purpose. **Price: 75c per plant, \$7.50 per dozen, \$45.00 per 100.**

Other Types

*BELLADONNA

Sky blue, beautiful sprays; large flowers with white centers, one of the best known. Height, 2 to 3 feet. Blooming June and July.

*BELLAMOSA

Deep rich blue form of Belladonna. Flowers produced on long sprays throughout the entire Summer. Height, 2½ to 3 feet.

*CHINENSE BLUE

Clear bright Chinense blue, a splendid carrying color in the garden. 20 to 24 inches high. Blooms June to frost.

*CHINENSE ALBA

Duplicate of Chinense in every way except color.

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

Bleeding Heart

†DIANTHUS (Hardy Garden Carnations)

"Garden Pinks," as most frequently described, are becoming very popular. They begin to flower in late May and continue to do so profusely throughout the season, if not permitted to go to seed. While not as large in flower as the greenhouse types, they are nice cut-flower specimens and very fragrant.

†**Beatrix**—Beautiful deep salmon pink in color. Individual flowers about the size of a 50c piece, and freely produced in May and June. Very fragrant. **Price: 35c each, \$3.50 per dozen, \$25.00 per 100**

†**Little Joe**—Impossible to beat this novelty with its distinct blue foliage as a contrast to the large crimson flowers, flowering the entire summer. Height, 12 inches. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

*†**Miss Gladys Cranfield**—A lovely single pink, flowers bright rose, with velvety crimson eye, very fragrant.

*†**Plumaris (Perpetual Pink)**—The old-fashioned hardy pinks with that elusive spicy clove fragrance. They range from white with red eye to deep pink. These delightful plants require well-drained soil and full sun.

†**Silvermine**—Pure white sport of "Beatrix" with much larger flowers. Very healthy foliage and habit of growth as well as being extremely fragrant. Height, 12 inches. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

DICTAMNUS (Gasplant or Burningbush)

An old garden favorite which has a strong smell of lemon and will sometimes give a flash of light on a sultry Summer evening when a lighted match is held near the flowers. Succeeds well in partial shade or full sun. Should not be moved after once established.

†**Fraxinella Rubra**—Rosy pink blooms in early Spring; glossy, handsome foliage throughout the season. 3 feet high, suitable for border or specimen plant. **Price: 60c per plant, \$6.00 per dozen.**

†**Fraxinella Alba**—Pure white form of above. **Price: 60c per plant, \$6.00 per dozen.**

DIELYTRA (Bleeding Heart)

*†**Eximia (Fringed Bleeding Heart)**—A dwarf Bleeding Heart that literally blooms all season. It grows about 12 to 15 inches high, has very finely cut foliage, and graceful racemes of pink, heart-shaped flowers. It comes into bloom in May and flowers until late October.

†**Spectabilis**—Graceful, heart-shaped, pink flowers; one of the choicest memories of old-fashioned gardens. Especially valuable for planting in shady spots. 2 feet. April and May. **Price: 60c per plant, \$6.00 per dozen.**

DIGITALIS (Foxglove)

A very attractive addition to the herbaceous border, thriving in sun or partial shade in light, rich loam. Blooming in June and July.

†**Purpurea**—An extremely fine purple.

†**Roseum**—A lovely pink.

†**Alba**—Pure white.

†**The Shirley Foxglove**—Exceptionally tall stately plants of very vigorous growth with wonderful blooming spikes, 3 feet long. In assorted colors only, ranging from palest pink to deepest rose with crimson dots.

DORONICUM (Leopardbane)

*†**Caucasicum**—A very showy Daisy-like flower of clear bright yellow, blooming in April and May. The most pleasing color scheme results when this is planted with Phlox Divaricata Laphamii. Very hardy and succeeds well in full sun or semi-shade. Height, 1½ feet.

EUPATORIUM (Hardy Ageratum)

*†**Conoclinium or Coelestinum**—A splendid border plant with lavender blue Ageratum-like flowers, adding blue to the border from August to frost. 1½ to 2 feet high.

†ERIGERON (Fleabane)

A very fine hardy Perennial growing about 18 inches high, and in June and July bearing a profusion of Aster-like flowers. Showy in the border and unexcelled for cutting.

Doronicum

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

Hemerocallis Harvest Moon

*†**Speciosus (The Midsummer Daisy)**—Large clear pale mauve flowers with bright golden centers. Excellent for cutting. Height, 18 inches.

*FUCHSIA

*†**Magellanica**—Very hardy, flowering the whole season long until stopped by frost. Ruby red pendulant flowers. These flowers do just as well in the sun as in the shade. Suitable for both hardy border and rock garden work. Suggested for growing in solid beds in shady places. **Price: 50c per plant, \$4.50 per dozen, \$30.00 per 100.**

*†**Ricartoni Scarlet Beauty** (Propagation Rights Reserved)—It is of upright habit—blossoms freely during the entire Summer. While it will stand the full sunlight, it will reach perfection in semi-shade. The four sepals are deep purple, the corolla bright ruby red. Requires some protection north of Philadelphia. **Price: 50c each, 3 for \$1.25, 12 for \$4.00.**

FUNKIA (Plantain Lily)

*†**Lanceifolia**—Very useful for borders and in partial shade. Late in season it produces a spike of lavender flowers. Plant does not attain a height of over 10 inches, but flower stalks will run up to about 2 feet.

*†**Subcordata Grandiflora**—The "August Lily." Fragrant, pure white, Lily-like flowers, flowering in August and September. Does well in partial shade; has very handsome foliage. Height, 2 to 2½ feet.

GAILLARDIA (Blanketflower)

*†**Dazzler**—Tangerine-bronze. A most unusual shade of color in Gaillardias. Begins to flower in late May and continues to do so throughout the season, unless permitted to go to seed. Height, 18 to 20 inches. **Price: 35c each, \$3.50 per dozen, \$25.00 per 100.**

*†**Mr. Sherbrook**—Golden yellow flowers without any marking of any other kind. The individual flowers are around 2½ inches across, with a yellow cushion in the center. A lovely garden subject, since it is very free flowering and continues to give quantities of flowers from June until frost. **Price: 35c each, \$3.50 per dozen, \$25.00 per 100.**

GEUM (Avens)

*†**Borisii**—A new variety of dwarf habit with warm, blood orange flowers on 8 to 10-inch stems. Free flowering from May to July, and often again in the Fall.

*†**Dolly North**—Lighter orange variation of the well-known "Princess Juliana." Flowers are smaller but borne in great profusion and in a gay airy manner. Individual flowers about 1½ inches in diameter on flowering spikes 18 inches tall. Blossoms profusely in May and June and periodically throughout the balance of the Summer. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

*†**Mrs. Bradshaw**—A new, large, double, scarlet variety, blooming the greater part of the Summer and Fall. Height, 15 inches.

*†**Red Wings**—Brilliant strawberry red with yellow anthers. Semi-double flowers 2 inches across produced profusely in May and June and intermittently throughout the Summer. Foliage 6 to 8 inches high and flowers on stems 20 to 24 inches. Where warm red color is desired in the early Summer garden, this Geum is strongly recommended. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

*†**Wilton Ruby**—The most outstanding novelty for 1942. It resembles "Fire Opal" in growth and hardiness, but the color is an unusual dark ruby-red. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

GYPSOPHILA

*†**Bristol Fairy**—Bristol Fairy has all the virtues of the popular Gypsophila paniculata, flore-pleno as a garden and landscape subject. It is sturdier, more graceful, and has much more distinct white flowers. Best of all, it is an all-Summer plant, blooming periodically from June till frost. **Price: 50c per plant, \$5.00 per dozen.**

*†**Rosy Veil**—Introduced into this country from Europe. Flowers of this variety are decidedly pink. Dwarf grower.

*†HELENIUM (Helenflower)

This magnificent Perennial during its blooming season from early August until middle of September, literally produces hundreds of beautiful yellow to bronze colored flowers.

Autumnale Superbum—Broad, spreading heads, deep golden yellow flowers. One of the most striking flowers in cultivation. 5 to 6 feet.

Autumnale Rubrum—Similar to Superbum, but has bright, terra-cotta red flowers; makes a wonderful display during the month of September. 5 to 6 feet.

*†HESPERIS (Sweet Rocket)

Showy, terminal, pyramidal, fragrant spikes, resembling stocks; blooming from June to August. Splendid for naturalizing in semi-shady places. 2 to 3 feet. In separated colors—**lavender and white.**

HYBRID HEMEROCALLIS

The following list has been selected for carrying along flowers of yellow shades throughout the entire season in the garden:

*†**Bijou**—Orange yellow overcast with rich blood red. Flowering June and July. 2½ feet high. **Price: \$2.50 each, \$25.00 per dozen.**

*†**Cissy Guiseppi**—Deep coppery rose red with a pale yellow throat, flowering July and August, attaining a height of about 2½ feet. **Price: \$1.50 each, \$15.00 per dozen.**

*†**D. D. Wyman**—Golden yellow with tawny splashes of the petals. Flowering July and August. Attaining a height of 2½ feet. **Price: 50c each, \$5.00 per dozen.**

*†**Dover**—Deep golden yellow flowers produced in great profusion in late May and early June. Individual flowers about six inches in diameter.

*†**E. A. Bowles**—Rich deep reddish orange blended with pale orange. Flowering in June and July. Height, 4 ft.

*†**Florham (Golden Day-Lily)**—Golden yellow with Indian yellow shadings. June and July. 3 feet.

*†**Goldeni**—A splendid deep golden yellow with flower maturing in July. Attaining a height of 3 feet.

*†**Gloriana**—Large clear orange. Flowering in June. Height, 3½ ft.

*†**Harvest Moon**—Color of orange sherbet. Flowering in July. Height, 3 ft.

*†**Hyperion**—A large soft canary yellow, flowering in July and August. 3½ feet high. **Price: 75c each, \$7.50 per dozen.**

*†**Iris Perry**—A glistening orange overlaid bronzy yellow. Flowering July and August. 3 feet high. **Price: 75c each, \$7.50 per dozen.**

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

†**Lemona**—Lemon yellow, flowering in July and August. One of the taller varieties, attaining a height of about 3½ feet.

†**Ophir**—Large golden yellow, flowering in August. 4 feet high. **Price: 75c each, \$7.50 per dozen.**

†**Patricia**—Pale yellow with citron green throat. Flowering in July. Height, 3 feet.

†**Queen of May**—Color pale apricot. Flowering in June. Height, 2½ ft.

†**Rajah**—Delicate orange-yellow with a zone of garnet red in center of flower. Flowering June and July. Height, 3 feet. **Price: \$2.50 each, \$25.00 per dozen.**

†**Sir Michael Foster**—Ruffled fragrant clear yellow. Blooming June and July. **Price: 75c each, \$7.50 per dozen.**

†**Vesta**—Brilliant orange-yellow dusted lightly with reddish gold shadings on each petal. Flowering July and August. Height, 2 feet. **Price: \$1.50 each, \$15.00 per dozen.**

†**Wau-Bun**—Cadmium yellow with outer half overcast a delicate shade of red. Flowering July and August. Attaining a height of 3 feet. **Price: \$1.50 each, \$15.00 per dozen.**

HELIANTHUS (Sunflower)

†**Multiflorus Flora Plena**—Deep golden yellow with quilted petals, similar to a Dahlia. Height, 4-5 feet. Flowering August and September.

HELIOPSIS (Orange Sunflower)

*†**Scabra Gratissima**—Imported variety. A full double golden yellow. Excellent for cutting. 100 per cent true.

HEUCHERA (Coralbell)

Few hardy Perennials lend themselves to as many uses in the garden as Heuchera. It makes a beautiful border with its rosettes of heart-shaped leaves, that remain green most of the Winter.

From late June to September they send up slender spikes 18 inches high, covered with small bright coral bells. It is ideal in the rock garden and fills an important blooming period in the herbaceous border. As a cut-flower, it keeps well and is most attractive used with other flowers for a table decoration.

*†**Pale Pink**—Very pale pink shade of this very popular Perennial. Flowers the entire season, and even when not in flower the foliage is most attractive.

†**Rosamundi**—Beautiful shade of coral-pink. A fine strong grower. Disease resistant. Produces quantities of coral-pink blooms on strong stems, and flowers over 10 weeks. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

***Sanguinea**—Pale pink to vivid crimson.

HOLLYHOCK (Double)

No old-fashioned garden is complete without Hollyhocks. Their stately spikes produce bold effects that cannot be obtained with any other flower.

Newport Pink—A very beautiful shade of clear glistening pink.

Deep Rose—Old Rose shade.

Yellow—Lemon shade of yellow.

White—A true pure white Hollyhock.

IBERIS (Hardy Candytuft)

Among the many species of plants particularly suitable for dwarf beds, borders and the rockery, none surpass the hardy Candytufts in making a rich showing during their flowering season. The foliage is also quite ornamental, being evergreen most of the Winter.

***Sempervirens**—Pure white flowers which completely cover the plants in May. About 15 inches high, and splendid for edging borders and rock gardens.

Azure—Double. Mauve-blue with wavy petals. The dark halo surrounding the yellow blotch at the base of the petals is most enchanting.

Bettie F. Holmes—The improved "Gold Bound," pure white in color with a midrib of lemon yellow. Flower much larger than Gold Bound in foliage and growing habit.

Blue Bird—A fine rich blue variety of fine form and color.

Columbia—A very striking double blue with pure white veins and yellow center.

Conspicuous—Very strong growing, profuse bloomer of reddish violet.

Dominator—Single. A dark violet blue, lighter veinings of orange at base of falls; makes a splendid spot of color in the July garden. Upright standards, very large, horizontal falls.

Gold Bound—Double. Large, double white enriched by a creamy glow, from the gold banded center.

La Favorite—Large white with delicate veinings of blue and a great purple center.

Mahogany—The nearest color we have to red in Japanese Iris. Grand double flowers of a rich mahogany color blooming late in the season.

Mount Hood—Double. Light blue with darker shadings and bright orange center.

Purple and Gold—Double. A striking violet purple with a conspicuous gold throat and bluish white rays.

Pink Pearl—Double. A delicate pearly pink with lilac tones. Quite an unusual coloring for Japanese Iris.

Pyramid—Double violet purple, veined white in center of each petal.

Rose-Anna—Double, mauve lavender, darker halo. Petals of soft, crepe-like texture, with yellow blotch at base.

Red Riding Hood—Amaranth pink suffused white. A grand color combination.

Violet Beauty—Large, single flower of a rich, dark violet purple, with long, conspicuous yellow center and graceful, crepe-like texture. A tall growing variety, very showy in garden.

Rose Anna Iris

Japanese Iris—Standard Varieties

The showiest of the early Summer flowers in the garden. Magnificent flowers in beautiful shades of color and very useful as cut flowers. This is the one type of Iris on which lime should never be used.

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

SIBERIAN IRIS

***Sibirica, Variety Orientalis**—These are grassy-leaved Irises retaining lovely flowering foliage throughout the season and blooming just at the close of the bearded Iris season. The delicately poised blossoms are attractive and valuable both for cutting and garden decoration. **White. Shades of Blue. Price: 25c per plant, \$2.50 per dozen.**

LAVANDULA (Sweet Lavender)

***Lavandula Vera**—Sometimes called Spica or Officinalis, a shrub attaining a height of about 3 feet, producing lavender flowers later in the season, mostly grown for its fragrance or drying for Winter use. It is extensively used for rock gardens or as a border.

LIATRIS (Blazing Star)

†**Squarosa**—Long spikes of brilliant lavender blue flowers surrounding the stem like small thistles. Flowering in July and August when this particular color is lacking in the garden. Attains a height of about three feet and an excellent cut-flower subject.

†**Squarosa Alba**—Pure white form of the above. A most attractive spike of flower in the garden, and one that caused a great deal of comment this past season.

†**Pycnostachya**—Long narrow spikes of rich purple flowers. Rather an unusual growth, but splendid for cut flowers in July and August and also a fine variety for the border. Attains a height of about 4 feet.

LILIES (Cultural Notes)

Most Lily bulbs may be planted in the Spring or Fall. The most important factor in growing Lilies is that they should have good drainage. Manure or commercial fertilizer should never be allowed to come in direct contact with the bulbs, as this is often the cause of rotting or disease. In planting, dig the hole 6 inches deeper than the bulb is to be set and place some well decomposed leafmold in the bottom of the hole. Over this, place an inch or two of sand. The bulb is then placed on its side on the sand. A mulch of peat moss or leaf-mold is very necessary during the Summer, with straw and leaves for Winter covering.

†**Lilium Henryi**—Very similar to Speciosum except in coloring, which is a gorgeous orange yellow with a green stripe down the center of each petal. This Lily blooms in August and September, which makes it very valuable for the late Summer garden. It is perfectly hardy and has no particular soil requirements. Plant 10 inches deep. **Price: 75c each, \$7.50 per dozen.**

†**Regale or Myriophyllum**—Flowers white, slightly suffused pink, with a beautiful shade of canary yellow at the center. Delightfully perfumed, reminding one of the Jasmine. Blooms out of doors early in July. Absolutely hardy. Plant 8 inches deep. **Price: Large size 75c each, \$7.50 per dozen; small size 3 bulbs \$1.00, 12 bulbs \$3.50.**

Russell Lupins

Lilium Regale

†**Speciosum Rubrum Magnificum**—Always satisfactory in the Perennial border, perfectly hardy and blooming late into September. Flowers white, shaded and spotted with rose and very fragrant. A graceful stem, 3 to 4 feet high, carries from three to twelve beautiful blooms that open gradually, prolonging the blooming season. Plant 10 inches deep. **Price: 50c each, \$5.00 per dozen.**

†**Lilium Tigrinum (Simplex Splendens)**—The well-known Tiger Lily that flourishes in all situations, is hardy and easily cultivated. Bright orange red flowers thickly dotted with purple spots. Admirably adapted for mass plantings against shrubbery. Blooms July and August. Plant 9 inches deep. **Price: 50c each, \$5.00 per dozen.**

LINUM (Flax)

***Flavum**—This yellow form of the above variety, but more compact in growth, being only a foot high. It is covered with light yellow flowers during June and July.

***Perenne**—One of the most effective of the blue perennial flowers, growing about 18 inches high and flowers from May to July. When planted en masse, makes a very beautiful show of color.

†RUSSELL LUPIN SEEDLINGS

Fine strong growing plants of the very much advertised Russell Lupins. Producing spikes 2 to 2½ ft. long on heavy stems from 3 to 4 ft. in length. Cannot furnish these in separate colors. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

†**Standard Sorts**—Effective plants with large spikes of flowers blooming profusely in May and June. They grow best in well-prepared garden soil, preferably in a semi-shady location. 3 feet. **Blue, White, Pink.**

LYTHRUM SALICARIA

†**The Beacon**—Outstanding for growing in a small border or for large mass plantings and does well in sun or partial shade. Blooms from July to September with bold spikes of brilliant red colored flowers and reddish-green foliage. Height, 4 feet. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

MATRICARIA (Feverfew)

†**Silver Ball**—Large, double white, ball-shaped flowers blooming June to October; foliage has an aromatic odor, valuable in the border and as a cut flower. 18 inches high.

MERTENSIA (Virginia Bluebells)

†**Virginica**—Blooms very early in the Spring, making a charming color scheme when planted with Doronicum. Flowers of bright blue, fading to pink and borne on graceful, drooping stems about 1½ feet high.

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

MONARDA (Bergamot)

†**Didyma**—Brilliant crimson-scarlet flowers produced on plants about 2½ to 3 feet high, during the months of July and August. Very showy and bright when planted en masse.

†**Lilacina (Lilac Bee-Balm)**—Lovely soft shade of lavender-blue flowers, about 2 feet high, flowering July to September.

*†**Salmonia (Salmon Bee Balm)**—Delightful salmon-pink flowers, about 2 feet high, flowering from July to September.

MYOSOTIS (Forget-me-not)

*†**Palustris Semperflorens**—No hardy flower is better known or appreciated than this light blue variety. Early and free in bloom. Perpetual flowering type. Prefers a damp location, 6 inches.

NEPETA (Ground-Ivy)

***Mussini**—A most desirable border or rock plant with gray-green foliage and covered with masses of pale lavender blue flowers. Blooms from May to November if cut back once during mid-Summer. One foot high and has a spread of 12 to 15 inches. Is a splendid ground cover. Especially useful in dry, sunny slopes to prevent washing.

***Souvenir de Andre Chaudron**—A very distinct, upright growing plant, 14 to 18 inches high. Silvery gray foliage and large dark blue flowers blooming constantly during June, July and August in the hottest and driest weather. Ideal for borders or dry sunny places. **Price: 40c each, \$4.00 per dozen, \$30.00 per 100.**

†OENOTHERA (Evening Primrose)

Excellent for border and rock garden work as well as on the edges of paths, because they are continuous in bloom throughout the entire Summer. Do very well in sunny places.

***Fraseri**—Pale yellow bell-like flowers, flowering from June till October.

†PAPAVER ORIENTALE (Oriental Poppy)

The true Oriental Poppy with extremely large blooms of brilliant crimson scarlet with rich purple blotches at the base of the petals. There is no Perennial that can equal this Poppy for brilliancy in the garden.

†**Mrs. Perry**—A very lovely shade of apricot pink. A most unique color and entirely distinct. Growing about 3 feet high, flowering in June and July.

†**Perry's White**—Pure white large Oriental Poppy with black blotch at the base. Attains a height of about 2½ feet. Flowering in June and July.

†**Salmon Glow**—This is an unusual offering because it is a true double salmon-orange Poppy with individual flowers 6 to 8 inches across. **Price: 75c each, \$7.50 per dozen.**

†**Snowflake**—“A sensational break in “Poppies” is an expert's opinion of “Snowflake.” Lower half of the flower pure white, upper half flame-orange, creating a most unusual and brilliant effect. The orange band of the upper half of the petals varies considerably in width with each flower, helping to increase the charm of this rare variety. A strong grower and free bloomer. Insect and disease proof and one of the strongest growing varieties to date. Large flowers. Poppy “Snowflake” in your garden will create a sensation. Spring delivery of strong plants in 2½ inch pots. From August until end of fall planting season field-grown roots. The pot plants are vigorous and most of them will bloom the first year. **Price: 75c each, \$7.50 per dozen.**

PACHYSANDRA (Japanese Spurge)

***Terminalis**—An evergreen ground cover unsurpassed for its adaptability to all situations and conditions. As a border for walks and drives it is most attractive. Also splendid for steep slopes in sun or shade, and for dense shade under any kind of trees. Pachysandra is the only plant to thrive under pine trees. It attains a height of about 8 inches. **Price: \$2.00 per dozen, \$15.00 per 100.**

PENTSTEMON (The Beard Tongue)

Few Perennials offer the graceful showing in a garden that Pentstemons do. The small tubular flowers like miniature fox gloves in shape, grow on long spikes and flower from June until August. Most effective.

COPYRIGHT

Phlox Apple Blossom

*†**Garnet**—A new strain of hardy, large-flowering Pentstemon. “Garnet” is of spreading habit and produces a succession of bloom from June until frost. Gloxinea-like flowers of rich garnet color, gracefully placed on stems 12 to 18 inches tall. The plants have from six to a dozen spikes continually in flower. Excellent for cutting and last a week or more in water.

Price: 50c each, \$4.50 per dozen, \$30.00 per 100.

*†**Glaber**—Hybrids ranging in color from pale lavender-blue through mauve to rose pink.

Hardy Phlox

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except when noted

If you want to add zest to your summer garden, plant Phlox and plenty of them. Their brilliancy of color and long season of flower make them one of the most desirable of Perennials.

Apple Blossom—A lovely apple blossom pink with a foliage clean and disease resistant. Firm flower spikes followed by side spikes of flowers that make this one of the nicest Phlox to grow in your garden. Individual flowers 2 to 2½ inches wide. Height, 3 feet. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

Columbia—Brilliant shrimp pink with faint shadings at the center. A color never before seen in Phlox. A striking variety in any collection and the most popular pink Phlox to date. Frequently referred to as the perpetual flowering Phlox and for this reason an acquisition to any garden. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

Commander Koehl—Dark blood-red. Large clusters on strong, tall stems. Individual flowers large, keeping their color in heat and rain. Flowering July and August, 2½ feet high.

Daily Sketch—Extra large trusses and individual flowers; color light salmon-pink with very faint carmine-eye. An outstanding novelty.

Ethel Prichard—French mauve. Early in the morning and on cloudy days, it looks almost as pale a blue as *Divaricata*. Strong grower, flowering July to September. 30 inches high.

Eva Foerster—One of the truest shades of pink to be found in Phlox. Very much the color of ripe watermelon.

Flash—One of the newer introductions. Fine brilliant red. An asset to any garden that requires brilliancy.

Harvest Fire—Brilliant salmon orange. Very vigorous grower. One of the best Phlox varieties introduced in many years. **Price: 35c per plant, \$3.50 per dozen, \$25.00 per 100.**

Katherine—Small mottled flowers of white and lavender. Short, compact grower but where this color is desired there is nothing to surpass this variety.

Leo Schlageter—Brilliant carmine with darker center; large trusses and a vigorous grower.

Mary Louise—Large heads of pure waxy white flowers. Individual flowers very large, the best white flowers to date. Good grower with clean foliage flowering August and September. 2½ to 3 feet high. **Price: 35c each, \$3.50 per dozen, \$25.00 per 100.**

Mrs. Milly von Hoboken—Lovely soft pink. Large flowers on tall erect stems. A variety that should be included in every collection.

Mrs. Sam McGredy—An unusually fine Phlox, which we are sure will become very popular. The flowers are a pleasant soft mauve with a carmine eye, and the growth is strong and upright.

***Miss Lingard**—This is known as the early flowering Phlox, since it comes into flower in May and continues to flower continuously until October, or the very heavy frosts injure it. Height about 2 feet. Color, pure white.

Nordlight—A very handsome variety with very large flowers of carmine pink with a bright red eye. Attaining a height of about 36 inches.

Painted Lady—Delicate silver-pink with salmon shading and red eye. Flowering July and August, 3 feet high.

Salmon Glow—Lively flame-pink, with salmon shades, softened with lilac and white tints at the center, the effect as a whole being a rich salmon. This new variety is extremely free flowering. July, throughout the season, 2 to 3 feet high.

Thor—Deep salmon pink, suffused with a scarlet glow, somewhat lighter in mass effect than *General Chanzy*. Has unusual gardenesque value.

*PHLOX DIVARICATA

A Perennial Phlox of pure gentian blue, growing to a height of 15 to 18 inches; unsurpassed as a border plant when planted in front of Darwin Tulips, since it flowers in May and continues flowering until early July.

No other garden flower blooming at this season shows this rare and beautiful color.

A solid bed of Phlox is one of the most attractive sights in any garden and we cannot too strongly recommend everyone to try at least a few plants of this remarkable plant.

PHYSOSTEGIA

***Vivid**—A new dwarf growing variety, that attains a height of 18-22 inches, and is a marvelous improvement on any previous variety introduced. It is much deeper in color and has larger individual flowers. A splendid cut-flower.

PLATYCODON (Japanese Bellflower)

The *Platycodons* are closely allied to the *Campanula* and form neat, branched bushes of upright habit, 2 to 2½ feet high. Attractive blue flowers from July to October.

***Grandiflorum**—A beautiful, deep blue.

***Grandiflorum Album**—Beautiful pure white type of above. 2 feet.

PLUMBAGO (Leadwort)

***Larpentae**—A splendid border or rock plant with deep blue flowers, blooming in September and October; dwarf spreading habit, 8 to 10 inches high.

*POLEMONIUM (Jacobs Ladder)

Blue Pearl—Has finely cut, deep green foliage and showy spikes of baby-blue flowers in April and May. Sun or shady places. Attains a height of 9 inches. There is no burning of foliage on this variety. **Price: 50c each, \$5.00 per dozen.**

†POLYANTHUS PRIMROSES (Pacific Strain)

This strain is the hardiest and easiest to grow of all the Primrose family, and is generally successful in every section of the country. They are a decided improvement on anything previously introduced, being clearer in color, longer stems, and larger in the individual size of flower and flower heads. *Selected plants in:*

White
Orange Pastels
Pink Pastels

Golden Yellow
Bronze-Apricot
Assorted New Shades

Price: 50c each, \$5.00 per dozen, \$35.00 per 100.

POTENTILLA (Cinquefoil)

***Cinera**—A rock garden *Potentilla* with bright yellow flowers and strawberry-like leaves. Flowers a very long season and for that reason is particularly useful in the rock garden.

*PULMONARIA (Lung-wort)

***Saccharata**—An excellent plant for the satisfactory border and rock garden, growing about 12 to 14 inches high. Flowers resemble the *Mertensia* to a great extent. Lovely pink blooms on beautiful silvery spotted foliage.

Polemonium

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

PYRETHRUM (Persian or Painted Daisy)

One of the best Perennials in our list. It is perfectly hardy, will thrive in any garden soil and in any situation except in dense shade under trees. As a cut-flower it is unsurpassed in daintiness and keeping qualities. Blooms in May and June, and if cut back after first bloom will give flowers throughout the Summer and early Fall. Grows about 1½ to 2 feet high.

†**Pink Bouquet**—A novelty possessing great charm in its utter freedom of bloom. A single stem will grow up to 30 inches tall and have 4 to 8 flowers forming an unusual bouquet in itself; hence the name, "Pink Bouquet." Outer petals deep Rose, with the center made up of numerous star-like petals. Almost like an Anemone Chrysanthemum flowering in the summer in your garden. A superb cut flower subject. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

†**Single Mixed**—From pale pink to deepest crimson.

RUDBECKIA

†**Purpurea**—Large showy reddish purple flowers; 4 inches across, 3 feet. July to October.

SANTOLINA (Lavender Cotton)

***Chamaecyparissus Incana**—A shrubby evergreen Perennial with aromatic silvery-white foliage. Small yellow flowers in round heads. Useful for sunny border and rock gardens. Height, 1 foot.

***SAPONARIA (Soap Flower)**

Ocymoides—Border plant, growing about 6 inches high, producing masses of bright blue flowers from July to October.

SCABIOSA (Pincushion Flower)

†**Caucasica**—Sky blue flower, about 4 inches across, with tufted center, flowering from June to September and attains a height of about 18 inches. Splendid for cutting purposes.

***SEDUM (Stonecrop)**

***Spectabile**—Most popular of all the Sedums, producing large, flat heads of rose-colored flowers 2 feet high. Mid-August to mid-September.

SWEET WILLIAM—Finest mixed varieties

***Giant White**—A very fine large-flowered pure white variety.

***Holburn Glory**—Very lovely shade of crimson with white edges. A variety that is extremely popular in most gardens.

†**Newport Pink**—Color salmon or watermelon pink. Height, 12 to 18 inches.

SPIREAS (Meadowsweet)

Very showy plants, either planted in isolated clumps or intermingled with other herbaceous plants in the hardy border. They thrive well in any rich garden soil, but prefer damp positions. Very decorative with beautiful spikes of flower.

†**Fanal**—Slender feathery plumes of rich red flowers. Most brilliant of the reds offered. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

†**Kriemheilde**—One of the most attractive of the late Spireas, salmon-pink in color.

†**Queen Alexander**—Another very fine pink variety.

†**Rubens**—Very beautiful carmine rose and one of the best liked of the many varieties sent out.

†**Venus**—Is a purplish rose, very tall, late growing variety.

STOKESIA (The Cornflower Aster)

†**Blue Moon**—It is of easy culture, a clean grower and flowers throughout the Summer and Autumn until frost. It is not at all unusual to see vivid blue disc-like flowers five to six inches in diameter on stems twelve to eighteen inches long. **Price: 50c each, \$4.50 per dozen, \$30.00 per 100.**

***Cyanea Caerulea**—Very large lavender blue flowers blooming from early July until late October—succeeds well in open, sunny position. A very desirable border plant growing about 1½ to 2 feet high.

TECRUM

***Chamaedrys**—Small shrub-like growth of shiny dark green leaves resembling dwarf Boxwood. Makes an excellent edging for a garden or border because it can be clipped to any height,

up to 12 inches. For nice compact planting set out about 6 inches apart. Does best in full sun. **Price: 50c each, \$4.00 per dozen, \$25.00 per 100.**

THALICTRUM (Meadow Rue)

†**Adiantifolium**—The foliage resembles the maiden hair fern and the feathery white flowers are airy and graceful in the garden or in bouquets. Blooms June and July. Height, 2 feet. Prefers a rich loam and rather moist place.

THYMUS (Creeping Thyme)

***Serpyllum Coccineus**—The favorite Thyme for flagging with its myriad of brilliant crimson blooms during the mid season. Evergreen and bronzy during the Winter.

TUNICA SAXIFRAGA

***Fl. Pl. rosea**—A dancing miniature of the beloved Baby's Breath in double form. Reigning gayly through the heat of the Summer.

VERONICA (Speedwell)

†**Blue Spire**—A hybrid of Veronica Longifolia Subsessilis and Veronica Spicata which has retained the glorious dark color of Veronica Subsessilis. Grows about two feet tall. Bushy habit, and a real addition to the Summer blues, which at this particular season are rather scarce. **Price: 50c per plant, \$5.00 per dozen, \$35.00 per 100.**

Scabiosa (Pincushion Flower)

HARDY PERENNIALS (continued)

Price: 30c each, \$3.00 per dozen, \$20.00 per 100, except where noted

VERONICA (Continued)

†**Longifolia Subsessilis**—This is one of the handsomest of the Veronica type. It has long spikes of a beautiful deep blue and is frequently used as a cut-flower. It attains a height of about 2 feet and flowers from July to September. **Price: 50c each, \$5.00 per dozen, \$35.00 per 100.**

†**Spicata Alba**—Long spikes of snowy white flowers blooming all Summer. An excellent variety for the middle of the hardy border. For best results the Veronicas should be lifted and divided every three years. Height, 2 ft.

***Teucrium**—A creeping variety covered with deep blue flowers in June. Most attractive.

VIOLA

***Apricot Queen**—A fascinating shade of apricot that compels the immediate attention and admiration of all who see it. The plant has a neat, compact habit of growth and blooms freely from Spring to October. The requirements for success in growing this charming Viola are to locate the plants in full sun and to shear them close to the ground twice during the season.

*†**Jersey King**—In the intensely hot weather the past Summer, Jersey King did not let up a single minute when every other Viola including Jersey Gem simply stopped. Deep blue.

VIOLET

***The King's Ermine**—A beautiful white hardy garden Violet coming into flower in early April, and continuing to bloom very freely for many weeks. Throat a rich purple.

*VINCA MINOR (Common Periwinkle)

One of the best evergreen ground covers making a thick trailing growth in two years. Blooms quite freely in early Spring and occasionally through the Summer.

***Bowles Variety**—A great improvement over any form of Vincas grown up to this time. The foliage is broader and of brilliant green. Plant is a strong grower and a very profuse bloomer. Flowers larger, of a deep blue shade. **Price: 35c per plant, \$3.50 per dozen, \$25.00 per 100.**

YUCCA (Adam's Needle)

Filamentosa—Ornamental foliage and flowering plants. Makes a splendid foil for the delightfully fragrant spikes of creamy white flowers produced during June and July. 5 to 6 feet tall.

CLEMATIS

Price: \$1.00 each, \$10.00 per dozen, except where noted
Large Flowering Varieties

Henryi—Pure white. Very fine.

Jackmani—The standard purple type.

Mme. Edouard Andre—The nearest variety we have to red in the large flowering types.

Ramona—Light blue variety. Most attractive.
Small Flowering Types

Paniculata—The sweet Autumn Clematis. Mounds of pure white flowers. **Price: 50c each, \$5.00 per dozen.**

Texensis—The scarlet Clematis. **Price: 85c each, \$8.50 per dozen.**

Write for Information on Other Varieties

Mignon Dahlias

DAHLIAS

Orchid Flowering Dahlias

(Tubers or Green Plants)

Price: 30c per Plant, 3 Plants 75c, \$3.00 per dozen, except where noted

Used as a cut-flower on a dinner or luncheon table, or in vases around a room, their graceful airiness is most pronounced. They are of the earliest possible culture, if they are planted and allowed to grow naturally, and will produce wonderful bushy plants, two to three feet in height, literally covered with blossoms. Trimmed back, three or four main stems to a plant, and staked, larger sprays and better flowers will be produced. The graceful curve of the petal prompted the name Orchid Flowering.

Buttercup—A brilliant canary yellow form of the Orchid Flowering Dahlia.

Comet—Wine colored ground with silvery pink reverse.

Ibis—Buff ground, with peach-red reverse, overlaid nopal red. 3 feet.

Polly—Yellow ground with intense red reverse. 4 feet.

Starfish—Pale flesh ground with ruby reverse. 3 feet.

Mignon Dahlias

(Green Plants Only)

These are the miniature Single type, attaining a height of not over 15 to 18 inches. Beginning to flower in early July and continuing right up until frost. Brilliant shades of white, bronze, red, yellow, etc., add bright spots to your border during the Summer months. Not available in individual shades.

Price: 3 Plants 75c, \$3.00 per dozen. \$20.00 per 100

Single and Miniatures

(Green Plants Only)

Price: 50c each, \$5.00 per dozen, \$35.00 per 100, except where noted

Our list of Dahlias is not the largest you can find, but they are a little more unusual than the average types, and the list given below are both decorative and useful for cut flower purposes.

Price: 50c each, \$5.00 per dozen, \$35.00 per 100.

SINGLES

- Bishop of Llandoff**—Red.
- Chancellor**—Pink and dark bronze.
- Paxitallis**—Purple with white edge.
- Schneeprinzessin**—White.
- Tango Surprise**—Bronze.

MINIATURES

- Baby Royal**—Pink and gold.
- Emblem**—Peach pink.
- Fairy**—Pink.
- Scarlet Pimpernell**—Brilliant red.

Cut Flower Varieties

(Green Plants Only)

Price: 35c each, \$3.50 per dozen, \$25.00 per 100

Newport Triumph—A very handsome, open center Dahlia of chamois pink. Has an open Daisy center and several rows of petals on the individual flower. Is an excellent keeper and shipper.

Newport Angel—An exact replica of the above, except in color, which is a pure, soft white.

Dwarf Dahlias

Tubers or Green Plants

Price: 3 Plants 75c, \$3.00 per dozen, \$20.00 per 100

A new race of bedding Dahlias forming dwarf compact plants which bloom throughout the Summer until frost. Flowers are seldom over four inches in diameter, but are produced in great profusion.

Christine—Dainty pure white flowers of small size.

Roslie—Lilac Rose, very graceful grower.

Elsie—Deep golden yellow at center, passing to rich orange carmine towards the tips of the petals. The flowers are of good size and excellent semi-cactus form.

Gertrude—Clean sulphur yellow, very compact with flowers of good size.

Kate—Showy bright scarlet flowers of formal contour.

Ursula—Intense crimson informal decorative with carmine reverse. Flowers comparatively large.

..... CLIMBING VINES

AMPELOPSIS

Ampelopsis Veitchi (Boston or Japanese Ivy)—

Useful in city or suburb; its glossy foliage withstands dust and smoke well. Clings to bricks, walls, fences or rocks. Once established forms a dense, rapid growth. Foliage turns to brilliant scarlet, crimson and orange in the Fall. **Price: 3-year-old, 75c each, 2-year-old, 50c each.**

ENGLISH IVY

English Ivy—There is nothing superior to English Ivy growing over old stumps or on stone walls. Splendid 4-inch pots. **Price: 50c each, \$5.00 per dozen.**

LONICERA HECKROTTI

Goldflame Honeysuckle (Trade Mark)—A superlative variety; beautiful, hardy and versatile. The large flame-coral trumpets lined with gold, fragrant after nightfall, appear in immense, showy clusters the same year the plant is set out. Reaching its full glory of bloom in early Summer, it nevertheless flowers abundantly from May until frost. Dark blue-green foliage, disease and pest free, is attractive in itself and makes a perfect background for the brilliance of the flowers.

Allowed to grow naturally, Goldflame will climb a trellis or spread as a ground cover, if pruned it becomes a striking specimen shrub, while if planted in a row and sheared it gives a smashing effect as an everblooming hedge. **Price: 75c each, \$7.50 per dozen.**

Lonicera Halliana (Hall's Evergreen Honeysuckle)—One of the best vines for all purposes, blooms from early Summer to frost. Flowers yellow and white with a delightful fragrance. Very vigorous grower. Splendid covering for banks and slopes. 2-year-old plants. **Price: 50c each, \$3.50 per dozen.**

Polygonum Auberti (Silver Lace Vine)—This vine produces a great profusion of foamy white flower sprays during the Fall, which often bloom in a limited way earlier in the season. It makes a strong, vigorous growth attaining a height of 25 feet, and is perfectly hardy. **Price: 50c each, \$5.00 per dozen.**

CHARLES H. TOTTY COMPANY, Madison, N. J.

[illegible]

From

Totty's

MADISON

NEW JERSEY

Important..

● "ORDER EARLY." We suggest "ordering early" because our stocks are complete and you may be sure of receiving the best plants from "early orders." We frequently receive orders late in the season when certain stocks are depleted. This can be avoided by "ordering early!"

Delivery will be made on all orders at the proper time for planting, providing no specific date is mentioned when ordering.

Plants that have grown too large or unsafe to move at a particular season will be reserved and shipped at the proper time.

Remittances should be made by check, post office order or express order. When not convenient to remit in this way the letter should be registered. We will not be responsible for the receipt of money not registered. On all shipments by parcel post the postage will be charged for.

Be sure that both postal and express addresses are mentioned. Frequently shipments requested to be sent by parcel post must be shipped by express due to over-weight when ready for delivery.

Orders for less than \$5.00 must be paid for in advance. When cash accompanies order a discount of 3% is allowed from the total amount of the order.

Accounts unpaid within 30 days are subject to sight draft without further notice and interest will be charged after that time.

Orders from customers in foreign countries must in all cases be accompanied by cash.

While we exercise every care in packing and have confidence in the safe arrival of shipments, all goods are forwarded at the purchaser's risk.

If found unsatisfactory on arrival return must be made to us immediately. Complaints on goods will not be accepted later than 30 days after arrival. No adjustment will be made after that time.

We endeavor to keep our plants true to name and maintain them satisfactory for the customer, but we

will not be responsible for failure from causes over which we have no control; such as unfavorable weather conditions, careless culture, improper soil, etc. We assume no responsibility after stock is delivered to customer in good condition.

If the customer does not wish to accept the shipment under these conditions, we ask that the plants be returned to us immediately.

We endeavor to fill our orders in the rotation in which they are received, but sometimes slight delays are unavoidable. A great deal of trouble can be avoided if customers will state specifically the date on which they are ready to plant and give us permission to ship on the nearest date possible.

CORRESPONDENCE—Inquiries, if made on a separate sheet of paper from the order, will have prompt attention.

PLEASE NOTE: It is not unusual for us to receive orders without any signature or identification mark attached. Customers who do not receive response to correspondence or orders within a reasonable time please write again, enclosing copy of letter or order so we may be able to trace same quickly.

Not less than three plants of one variety will be sold at the dozen rate, nor less than twenty-five at the hundred rate. We are sometimes asked to send one hundred plants embracing about thirty varieties at the hundred price. We will not send less than twenty-five of one variety at the hundred rate. It takes considerable time to select one hundred plants in twenty or thirty varieties and we must charge for the same accordingly.
